BURIAL BOARDS.

RETURN to an Order of the Honourable The House of Commons, dated 23 May 1894;—*for*,

COPY "of MEMORANDUM prepared by the LOCAL GOVERNMENT BOARD as to the Effect of 'THE LOCAL GOVERNMENT ACT, 1894,' as regards BURIAL BOARDS."

Local Government Board,
28 May 1894.

HUGH OWEN,
Secretary.

MEMORANDUM as to the Effect of the LOCAL GOVERNMENT ACT, 1894, as regards BURIAL BOARDS.

IF, after the election of parish councils, the Burial Acts, 1852 to 1885, are adopted for the whole or part of any parish which has a parish council, no Burial Board will be elected, but the parish council will be the authority for the execution of these Acts.

Consequently, after the Local Government Act, 1894, comes into operation, a Burial Board cannot be newly established in any rural parish having a parish council.

In cases in which the area of jurisdiction of an existing Burial Board is co-extensive with a rural parish, all the powers, duties, and liabilities of the Burial Board will be transferred to the parish council on the latter coming into office. The Burial Board will cease to exist, and their place will be taken by the parish council without any adoption of the Burial Acts by the parish meeting.

Where the area under a Burial Board is part only of a rural parish, the Burial Board, or the parish meeting for that part, may transfer the powers, duties, and liabilities of the Burial Board to the Parish Council, subject to any conditions as to the execution thereof by a committee as the Burial Board or parish meeting may impose.

Where the area is in two or more rural parishes, the powers of the Burial Board will be transferred by the Act of 1894 to the respective parish councils for such parishes; and where the area is partly in a rural parish and partly in an urban district, these powers will be transferred to the parish council and the district council of the urban district. Until other provision is made, the powers so transferred are to be exercised by a joint committee. Where there is no parish council, the parish meeting is to be substituted in the cases last mentioned.

Subject to this, a parish meeting in a rural parish which has no parish council will have none of the powers of a Burial Board under the Burial Acts, unless the County Council, on the application of the parish meeting, confer on them the powers given by the Act of 1894 to a parish council in this matter; but Burial Boards may still be newly established for the same areas as heretofore in rural parishes having no parish council if there is no existing Burial Board for such area, and if the Burial Acts are adopted by the parish meeting for it.

Any such Burial Board will have the usual power to provide a cemetery.

Existing Burial Boards in rural parishes, except where they are superseded as above stated, will continue to exist, without any adoption of the Burial Acts by the parish meeting.

Where a Burial Board district is wholly in an urban district the council of the district may resolve that the powers, duties, and liabilities of the Burial Board shall be transferred to the council from a specified date, and such transfer will take effect from that date and the Burial Board will cease to exist. Subject to this, the Burial Board for such a district will not be affected by the Act.

The powers possessed by rural sanitary authorities of providing cemeteries under the Public Health (Interments) Act, 1879, will be transferred to rural district councils.

CIRCULAR to Guardians and Urban Sanitary Authorities other than Town Councils.

Local Government Board, Whitehall, S.W.,
Sir, 5 March 1894.

I AM directed by the Local Government Board to draw attention to the provisions of the Local Government Act, 1894, which has this day received the Royal Assent, in so far as they affect the election of guardians and members of urban sanitary authorities during the present year.

Under the Act, urban and rural district councils will take the place of urban and rural sanitary authorities, and parishes in any rural district will be represented on the board of guardians by the persons elected as rural district councillors, guardians as such being only elected in parishes in urban districts.

The first elections under the Act of guardians and district councillors will be held on the 8th November next or on such later date or dates in the year 1894 as the Board may fix, and the persons elected will come into office on the second Thursday next after their election, or such other day not more than seven days earlier or later as may be fixed by or in pursuance of rules made by the Board in relation to their election.

Upon the day on which the first guardians and urban or rural district councillors elected under the Act come into office, the persons who are then members of boards of guardians or urban or rural sanitary authorities will cease to hold office; but until that day the persons who at the passing of the Act were guardians or members of urban sanitary authorities for districts other than boroughs will continue in office notwithstanding any want of qualification, as if the term of office for which they were elected expired on that day, and except for the purpose of filling casual vacancies, or of electing additional guardians, where the number is increased, no further elections will be held.

Hence, the guardians and members of urban sanitary authorities who would have gone out of office in April next but for the passing of the Act, will continue in office until November and will then retire, and the elections which would otherwise have been held in April will not take place. No further steps, therefore, should be taken with a view to any such election.

I am, &c.
(signed) *Hugh Owen,*
Secretary.

The Clerk to the Guardians or
Urban Sanitary Authority.

2.

CIRCULAR to Highway Boards in England and North Wales.

Local Government Board, Whitehall, S.W.,
9 March 1894.

Sir,

I AM directed by the Local Government Board to draw the attention of the Highway Board to certain provisions of the Local Government Act, 1894.

District councils will under the Act be elected for rural districts, and will take the place of the present rural sanitary authorities.

Section 25 of the Act provides that there shall be transferred to the district council of every rural district all the powers, duties, and liabilities of any highway authority in the district, that highway boards shall cease to exist, and that rural district councils shall be the successors of the highway authority. It is, however, enacted that the council of any county may by order postpone within their county, or any part thereof, the operation of this section, so far as it relates to highways, for a term not exceeding three years, or such further period as may, on the application of the county council, be allowed by the Board. The effect of this provision will be that the Highway Board will cease to exist on the day on which the first rural district councillors come into office, and the rural district council will thereupon become the highway authority, unless the county council postpone the operation of the section within their county or the part thereof comprising the district of the Highway Board.

Section 84 provides that the first elections of district councillors under the Act shall be held on the 8th November next, or on such later date or dates in the present year as the Board may fix, and that the persons elected shall come into office on the second Thursday after their election, or such other day not more than seven days earlier or later, as may be fixed by or in pursuance of the rules made by the Board under the Act in relation to the election of those councillors.

By section 79, persons who, at the passing of the Act, are members of highway boards are continued in office until the day on which the first rural district councillors elected under the Act come into office, as if the term of office for which they were elected expired on that day, and consequently the usual annual election of waywardens will not take place in the present year.

An order under section 25 is, by section 84, to make such provision as may be necessary for holding elections of highway boards in the interval during which the operation of section 25 is postponed. This provision will enable the county council to give directions in their order for the election of waywardens in place of those who will cease to hold office as mentioned above, when the rural district councillors come into office, and also to order for what period such waywardens shall be elected, having regard to the period of postponement.

As regards the position of the officers of highway boards that will cease to exist under the Act, the Board direct me to state that section 81 provides that where the powers and duties of any authority other than justices are transferred by the Act to any district council, the officers of that authority shall become the officers of that council, and that every such officer shall hold his office by the same tenure, and upon the same terms and conditions as heretofore, and while performing the same duties shall receive not less salary or remuneration than heretofore. The section also provides that section 120 of the Local Government Act, 1888, which relates to compensation to existing officers, shall apply in the case of existing officers affected by the new Act, as if references in the section to the county council were references to the authority whose officer the person affected is when the claim for compensation arises.

At the same time, the Board may draw the attention of the Highway Board to sub-section (2) of section 86 of the Act, under which it will be the duty of every authority whose powers, duties, and liabilities are transferred by the Act to liquidate so far as practicable before the day on which the transfer takes effect, all current debts and liabilities incurred by the authority; and to sub-section (2) of section 85, under which the accounts of the Highway Board before that day will be audited in the same manner as if the Act had not passed, and for the purpose of the audit the Highway Board and their accounting officers will, until the audit is completed, be deemed to continue in office and be bound to perform the same duties and render the same accounts, and be subject to the same liabilities as before the transfer.

I am, &c.
(signed) *Hugh Owen,*
Secretary.

To the Clerk to the Highway Board.

3.

CIRCULAR to Highway Boards in South Wales.

Local Government Board, Whitehall, S.W.,
12 March 1894.

Sir,

I AM directed by the Local Government Board to draw the attention of the Highway Board to certain provisions of the Local Government Act, 1894.

District councils will under the Act be elected for rural districts, and will take the place of the present rural sanitary authorities.

Section 25 of the Act provides that there shall be transferred to the district council of every rural district all the powers, duties, and liabilities of any highway authority in the district, that highway boards shall cease to exist, and that rural district councils shall be the successors of the highway authority. It is, however, enacted that the council of any county may by order postpone within their county, or any part thereof, the operation of this section, so far as it relates to highways, for a term not exceeding three years, or such further period as may, on the application of the county council, be allowed by the Board. The effect of this provision will be that the Highway Board will cease to exist on the day on which the first rural district councillors come into office, and the rural district council will thereupon become the highway authority, unless the county council postpone the operation of the section within their county or the part thereof comprising the district of the Highway Board.

Section 84 provides that the first elections of district councillors under the Act shall be held on the 8th November next, or on such later date or dates in the present year as the Board may fix, and that the persons elected shall come into office on the second Thursday after their election, or such other day not more than seven days earlier or later, as may be fixed by or in pursuance of the rules made by the Board under the Act in relation to the election of those councillors.

By section 79, persons who, at the passing of the Act, are members of boards of guardians and of highway boards, are continued in office until the day on which the first rural district councillors elected under the Act come into office, as if the term of office for which they were elected expired on that day, and consequently the usual annual election of guardians will not take place in the present year. The effect of this enactment will be to

continue in office the existing members of highway boards in South Wales until the day referred to.

As regards the position of the officers of highway boards that will cease to exist under the Act, the Board direct me to state that section 81 provides that where the powers and duties of any authority other than justices are transferred by the Act to any district council, the officers of that authority shall become the officers of that council, and that every such officer shall hold his office by the same tenure, and upon the same terms and conditions as heretofore, and while performing the same duties shall receive not less salary or remuneration than heretofore. The section also provides that section 120 of the Local Government Act, 1888, which relates to compensation to existing officers, shall apply in the case of existing officers affected by the new Act, as if references in the section to the county council were references to the authority whose officer the person affected is when the claim for compensation arises.

At the same time the Board may draw the attention of the Highway Board to sub-section (2) of section 86 of the Act, under which it will be the duty of every authority whose powers, duties, and liabilities are transferred by the Act to liquidate as far as practicable before the day on which the transfer takes effect, all current debts and liabilities incurred by the authority; and to sub-section (2) of section 85, under which the accounts of the Highway Board before that day will be audited in the same manner as if the Act had not passed, and for the purpose of the audit the Highway Board and their accounting officers will, until the audit is completed, be deemed to continue in office and be bound to perform the same duties and render the same accounts, and be subject to the same liabilities as before the transfer.

I am, &c.
(signed) *Hugh Owen*,
Secretary.

To the Clerk to the Highway Board.

4.

CIRCULAR to Metropolitan Vestries and District Boards and the Local Board of Woolwich.

Local Government Board, Whitehall, S.W.,
19 March 1894.

Sir,

I AM directed by the Local Government Board to draw attention to certain provisions of the Local Government Act, 1894, affecting the vestries and district boards elected under the Metropolis Management Acts, and the local board of Woolwich.

Section 31 directs that the provisions of the Act with respect to the qualification of the electors of urban district councillors, and of the persons to be elected, and with respect to the mode of conducting the election, shall apply as if members of the local board of Woolwich, and the vestries elected under the Metropolis Management Acts, 1855 to 1890, or any Act amending those Acts, and the auditors for parishes elected under those Acts were urban district councillors. So far as respects the qualification of persons to be elected, the provisions referred to are also to apply as if members of the district boards under those Acts were urban district councillors; but in other respects the election of members of district boards will be conducted as heretofore.

Under the operation of section 31 of the new Act the electors of the members of the local board of Woolwich, of the vestries under the Metropolis Management Acts, and of the auditors elected under section 11 of the Metropolis Management

Management Act, 1855, will be respectively the parochial electors of the parish of Woolwich and of the parishes for which vestries are elected. Where the area under the jurisdiction of any of the authorities mentioned is divided into wards, the electors for each ward will be such of the parochial electors as are registered in respect of qualifications within the ward. (Section 23 (3)). The expression "parochial elector" when used with reference to a parish in the county of London is defined by section 75 to mean any person who would be a parochial elector of the parish if it were a rural parish, and the parochial electors in a rural parish will under section 2 be the persons registered in such portion either of the local government register of electors or of the parliamentary register of electors as relates to the parish. Section 44 of the Act provides for the manner in which the register of the parochial electors of a parish is to be formed.

With respect to the persons to be elected as urban district councillors, it is provided by sub-section (2) of section 23 that a person shall not be qualified to be elected or to be a councillor unless he is a parochial elector of some parish within the district, or has during the whole of the 12 months preceding the election resided in the district, and no person shall be disqualified by sex or marriage for being elected or being a councillor. This provision is made applicable to members of the local board and the vestries and district boards, and to the auditors for parishes, by section 31 of the Act.

In connection with the qualification of persons to be elected, reference should be made to the provisions relating to the disqualification of a person for being elected or being a member of a district council, contained in section 46 of the Act, which by sub-section (9) is made applicable in the case of any authority whose members are elected in accordance with the Act, in like manner as if that authority were a district council, and in the case of London auditors as if they were members of a district council.

An election under the Act will be conducted according to rules to be framed by the Local Government Board. (Section 23 (5) and section 48). If there is a poll it will have to be taken by ballot.

Copies of the rules for regulating the elections will be forwarded to you when they are issued.

The expenses of any election under the Act are not to exceed the scale fixed by the county council, but if at the beginning of one month before the first election the county council have not framed a scale, the board may do so, and the scale thus framed will apply to the first election and will have effect as if it had been made by the county council. (Section 48 (7)).

The Elections (Hours of Poll) Act, 1885, will apply to elections of members of vestries under the Metropolis Management Acts. (Section 31 (1)).

Sub-section (5) of section 48 provides that if any difficulty arises as respects the election of any individual member of the local board, or vestry, or auditor, and there is no provision for holding another election, the county council may order a new election to be held and give such directions as may be necessary for the purpose of holding the election.

The Act also provides that if any difficulty arises with respect to the holding of the first election of members of the local board or any vestry, or of auditors, or to the first meeting of the local board or vestry, or if, from no election being held or an election being defective or otherwise, the first local board or vestry has not been properly constituted or there are no auditors under the Metropolis Management Acts, 1855 to 1890, or an insufficient number, properly elected, the county council may by order make any appointment or do anything which appears to them necessary or expedient for the proper holding of any such first election and properly constituting the local board, or vestry or auditors, and may, if it appears to them necessary, direct the holding of a meeting or election, and fix the dates for any such meeting or election. Any such order may modify the provisions of the Act, and the enactments applied by, or rules framed under it, so far as may appear to the county council necessary or expedient for carrying the order into effect. (Section 80 (1)).

Section 84 provides that the first elections under the Act shall be held on the 8th of November next, or such later date or dates in the present year as the Board may fix, and that the persons elected shall come into office on the second Thursday next after their election, or such other day not more than seven days earlier or later as may be fixed by or in pursuance of the rules made by the Board under the Act in relation to their election.

By section 79 persons who, at the passing of the Act, are members of the local board and of any vestry under the Metropolis Management Acts, or are auditors under those Acts, are continued in office until the day on which the first members and auditors elected under the Act come into office, as if the term of office for which they were elected expired on that day, and consequently the usual annual election of such members and auditors respectively will not take place until the day appointed for the first elections under the Act. Under sub-sections (3) and (10) of the section, the first annual retirement of members of the local board and vestries first elected under the Act will take place at the date of the annual election in the year 1896; and sub-section (6) provides how the members who are to retire in 1896 and 1897, respectively, are to be determined. Except as regards the present year, the dates for the annual elections will not be altered by the Act; but, as indicated above, there will be no annual election in 1895.

The existing local board and the existing vestries are required to take the necessary measures for the conduct of the first elections under the Act of members of the local board and of the vestries respectively, including any appointment of returning officers required by rules made by the board under the Act. (Section 79 (1) and (10)).

After the vestrymen first elected under the Act come into office, no person is *ex officio* to be chairman of any of the vestries under the Metropolis Management Acts (section 31 (1)), but each of the vestries, except those electing district boards, and each of the district boards and the local board of Woolwich must, at their first meeting after the annual election of members, elect a chairman for the year, and the chairman so elected will, unless a woman or personally disqualified by any Act, be by virtue of his office a justice of the peace for the county of London, but before acting as such justice he must, if he has not already done so, take the oaths required by law to be taken by a justice of the peace, other than the oath respecting the qualification by estate. (Sections 22 and 31 (2)).

The provisions of section 41 of the Metropolis Management Act, 1855, enabling a district board to elect a chairman of the meeting, will apply only in the case of the absence of the chairman of the district board elected under the new Act. (Section 31 (2)).

Nothing in any local and personal Act is to prevent any vestry in the county of London from holding its meeting at such time as may be directed by the vestry. (Section 31 (3)).

Certain provisions of the Metropolis Management Acts which are inconsistent with or are superseded by the provisions above referred to, are repealed by section 89 and the second schedule to the new Act.

I am, &c.
(signed) *Hugh Owen*,
Secretary.

The Clerk to the Vestry
or District Board,
or to the Local Board of Woolwich.

5.

CIRCULAR to County Councils, except the London County Council.

Local Government Board, Whitehall, S.W.,
24 March 1894.

Sir,

I AM directed by the Local Government Board to draw the attention of the county council to certain provisions of the Local Government Act, 1894, and especially to those under which powers and duties will devolve on the county council for the purpose of bringing the Act into operation within the county.

Order No. 30868
6 copies.
Parliamentary Returns.
315 and 437 H. C. 1893.

Every parish in a rural sanitary district, and in the case of a parish which is partly within a rural sanitary district, the part within such district will be for the purposes of the Act a rural parish. For every rural parish there will be a parish meeting, and for every rural parish, which according to the census of 1891 has a population of 300 or upwards, there will be a parish council, which will be elected by the parliamentary and county electors registered in the portions of the parliamentary and county registers relating to the parish. The parish meeting will consist of these persons, who are in the Act described as the parochial electors.

It is not necessary for the present purpose to set out all the powers which will be possessed by a parish council, but in connection with the duties that will devolve on the county council, it may be noticed that most of the powers of the vestry, in other than ecclesiastical affairs, will be transferred to the parish council, and that where the Lighting and Watching Act, 1833, the Baths and Washhouses Acts, 1846 to 1882, the Burial Acts, 1852 to 1885, the Public Improvements Act, 1860, and the Public Libraries Act, 1892, or any of these Acts (which are referred to as the adoptive Acts), have been put in force in a rural parish before the parish council come into office, that council will be the authority for executing the Acts, if they are in force in the whole of the parish. Section 53 of the Act provides means whereby the parish council may become such authority in a case where the Acts are in force in part of the parish only.

The Act makes important alterations in the qualification, mode of election, and retirement of guardians, and confers on county councils new powers in relation to certain matters connected with this subject, which will be explained in a later part of this circular.

Urban sanitary authorities will, as from the appointed day, be called urban district councils, and their districts will be called urban districts, but the style or title of a town council will not be altered. The mode of election of urban district councillors will, except in a borough, differ from that at present in force, and certain powers are given to county councils in connection with the retirement of urban district councillors. These will be referred to hereafter.

For every existing rural sanitary district wholly comprised in one county, there will be a rural district council, whose district will be called a rural district, and where a rural sanitary district is situate in more than one county, such portion of it as is situate in each county will, save as otherwise provided in pursuance of the Act, or of any other Act, be as from the appointed day a rural district. District councillors will be elected for every parish or other area for the election of guardians in a rural district. They will be elected by the parochial electors, and will be the representatives of that parish or area on the board of guardians, and guardians as such will not be elected for that parish or area.

The provisions of the Act with respect to the qualification, election, term of office, and retirement of guardians, will apply to rural district councillors. Hence the powers of the county council in relation to these matters, so far as guardians are concerned, will apply in the case of rural district councillors also.

Rural district councils will be substituted for rural sanitary authorities, and will have all the powers and duties of those authorities. They will have certain new powers and duties under the Act, but except in connection with highways, it is unnecessary to draw the attention of the county council to any of these powers or duties. The provisions as to highways are dealt with in a later part of this circular.

The provisions which should first receive the attention of the county council are those contained in Part III. of the Act, which relate to areas and boundaries.

The Act contemplates that every parish, and as a general rule, every rural district shall be wholly within one administrative county, and that, also as a general rule, every parish shall be wholly within one rural or urban district. With a view to secure this result, and to provide for the settling of incidental administrative arrangements consequent on the alterations of areas which are made by the Act itself, very important duties have been imposed on county councils.

Section 83 makes it the duty of every county council to exercise all such of their powers as may be requisite for bringing the Act into full operation within their county as soon as may be after the passing of the Act.

The first elections under the Act are to be held on the 8th November next, or such later date or dates in the present year as the Board may fix, and the persons elected are to come into office on the second Thursday next after their election, or such other day not more than seven days earlier or later as may be fixed by or in pursuance of rules made by the Board under the Act in relation to their election. (Section 84.) It is important that alterations which may affect the preparation of the lists of voters should be made sufficiently early to enable the lists to be properly prepared, and it is consequently provided by sub-section (3) of section 84, that every division into wards or alteration of the boundaries of any parish or union or district which is to affect the first election shall, if parishes or parts for which the registers of parochial electors will be made are affected, be made, so far as practicable, before the 1st of July next.

Many of the provisions of the Act referred to in this circular are to take effect from the "appointed day." Subject as mentioned in the Act, this day, for the purpose of elections, is defined as the day or respective days fixed for the first elections under the Act, or such prior day as may be necessary for the purposes of giving notices or doing other acts preliminary to such elections, and for the purpose of the powers, duties, and liabilities of councils or other bodies elected under the Act, or other matters not specifically mentioned, it will be the day on which the members first elected come into office.

The powers and duties of county councils, so far as they may have to be exercised either before or in connection with the first elections, may be classified under the following heads:—I. Areas and Boundaries. II. Parish Councils. III. Guardians and District Councillors. IV. Highways. V. Miscellaneous.

I. Areas and Boundaries.

Sub-section (1) of section 36 provides as follows:—

For the purpose of carrying this Act into effect in the case of—

(*a*) every parish and rural sanitary district which at the passing of this Act is situate partly within and partly without an administrative county; and

(*b*) every parish which at the passing of this Act is situate partly within and partly without a sanitary district; and

(*c*) every rural parish containing a population of less than 200; and

(*d*) Every rural sanitary district which at the passing of this Act has less than five elective guardians capable of acting and voting as members of the rural sanitary authority of the district; and

(*e*) every rural parish which is co-extensive with a rural sanitary district;

every

every county council shall forthwith take into consideration every such case within their county; and whether any proposal has or has not been made as mentioned in section 57 of the Local Government Act, 1888, shall, as soon as practicable, in accordance with that section, cause inquiries to be made and notices given, and make such orders, if any, as they deem most suitable for carrying into effect the present Act in accordance with the following provisions, namely:—

(i.) The whole of each parish, and, unless the county council for special reasons otherwise direct, the whole of each rural district shall be within the same administrative county;

(ii.) The whole of each parish shall, unless the county council for special reasons otherwise direct, be within the same county district; and

(iii.) Every rural district which will have less than five elected councillors shall, unless for special reasons the county council otherwise direct, be united to some neighbouring district or districts.

By sub-section (11) of section 36 it is provided that, where at the passing of the Act a rural sanitary district or parish is situate in more than one county, a joint committee of the councils of the several counties comprising the district or parish shall act under the section. The appointment by each county council of representatives on the joint committee is to be made within two months after request from any other of the councils interested. If any of the councils fail to appoint members of the committee within that period, the members actually appointed are to act. Any question relating to the constitution or procedure of the joint committee, as to which the councils concerned are unable to agree, is to be determined by the Board.

The first case mentioned in section 36 is that of a parish in more than one administrative county. In many instances of this kind the rural district will also be in more than one county, and the Board have dealt with them later on, in their remarks on cases where the rural district is so situate.

The county council will also have to consider the case of any parish which is not wholly contained within one sanitary district, and these cases include some in which the parish is in more than one county also. If at the passing of the Act a parish is partly within and partly without a rural sanitary district, that is to say, is partly in such a district and partly in an urban district, and no action is taken by the county council prior to the appointed day, the parish will, as from that date, be divided by the Act, the part within the rural district and the part without being constituted separate parishes by sub-section (3) of section 1.

Where the part outside the rural district is comprised in more than one urban district, the provisions of sub-section (2) of section 36 referred to below will apply to it.

If the rural part of the parish is deemed too small to form a separate parish, the county council should consider whether it could properly be united with some other rural parish. It would, however, be competent to the county council, if the circumstances justified it, by an order under section 57 of the Act of 1888, to extend any urban district, not being a borough, containing part of the parish, so as to include the rural part of the parish.

If a parish is situate in two or more urban districts, the part in each urban district will, unless the county council otherwise direct, and subject to any alteration of area made by or in pursuance of the new Act or of any other Act, become as from the appointed day a separate parish. (Section 36 (2).) The county council can either alter the boundary between the urban districts, if neither of them is a borough, so as to include the whole parish within one district, or direct that the parish and urban districts shall remain unaltered, but the latter course would be opposed to the general scheme of the Act, and can only properly be adopted where there are special reasons for it. These observations apply equally to the urban part of a parish situate partly in a rural and partly in two or more urban districts. In any case, such as those mentioned above, where the parish is situated partly in a borough, the boundary of the borough could be altered by an order of the board under section 54 of the Local Government Act, 1888. The county council or a joint committee could not properly make an order which would place or leave a

parish in more than one county. It would be inconsistent with the Local Government Act, 1888, that an urban district should be in more than one county.

Where a parish is divided by the Act into two or more new parishes, sub-section (9) of section 36 directs that those parishes shall, until it is otherwise provided, be included in the same poor law union in which the original parish was included, and sub-section (1) of section 79 directs that, subject to any order made by the county council, there shall be one guardian; and, in the case of a new parish in a rural district, one district councillor for each of the new parishes. Many of the parishes which will be divided by the Act are at present entitled to more than two guardians, and not only in these cases, but in every other to which the above provision applies, the county council may be called upon to make an order as to the future representation of the new parishes.

The county council will have power to give names to the new parishes formed by the Act, although no order for any alteration of area has been made by them. (Section 55 (2).)

It is provided by sub-section (11) of section 79 of the new Act that the overseers of any parish divided by the Act shall, until the first appointment of overseers next after the appointed day, continue in office as if they were overseers of each part of the parish, which by reason of such division becomes a separate parish.

The case of parishes with a population under 200 is dealt with under the head of parish councils.

It is to be observed that when parishes are divided, and new parishes are constituted by the Act, whether under section 1 (3) or section 36 (2), they are to be separate parishes in like manner as if they had been constituted separate parishes under the Divided Parishes and Poor Law Amendment Act, 1876, and the Acts amending the same. The formation of parishes under the Acts referred to has no effect as regards the constitution of school districts without the sanction of the Education Department.

Taking next the case of the rural sanitary districts situate in more than one county, the Act provides that where any such district is on the appointed day situate in more than one administrative county, such portion thereof as is situate in each administrative county shall be as from that day a rural district, save as otherwise provided by or in pursuance of this or any other Act. (Section 24 (5).) Unless, therefore, as regards any particular rural sanitary district not wholly comprised within one county, a joint committee of the county councils interested for special reasons otherwise direct, the district will be divided by the Act.

In a case where a rural sanitary district is in more than one county, but none of the parishes in the district overlap the boundary of any county, the first question for consideration will be whether any special reasons exist for directing that the district shall not be divided in the manner contemplated by sub-section (5) of section 24. The Act does not define what special reasons may be regarded as sufficient for interfering with the operation of that section, and the discretion of the joint committee of the county councils is, therefore, unfettered in that respect. If it is considered that there are special reasons for not dividing the district, but it is deemed expedient that the boundary between the counties should be altered so as to include the whole of the district within one county, this alteration can be effected by an order of the Board under section 54 of the Local Government Act, 1888. (*See* sub-section (5) of section 36 of the new Act.)

If the division of the district is not interfered with, but the effect of it would be to create a rural district having less than five elective councillors, the case comes under paragraph (iii.) of sub-section (1) of section 36, which requires that any such district shall, unless for special reasons the county council otherwise direct, be united to some neighbouring district or districts. This applies also to rural districts having less than five elected councillors which already exist, irrespective of county boundaries. If the county council find that there are sufficient reasons for not uniting the district to some neighbouring district or districts, as, for instance, in a case where the severed part is entirely rural in character, and there is no other rural district within

within a convenient distance to which it could be united, they may make an order accordingly, and if the order is confirmed it will devolve on the Board, under sub-section (5) of section 24, to nominate members of the district council in order to make the number up to five, or to take some other action under that sub-section.

If no special reasons to the contrary exist, the council must make an order uniting the district to some neighbouring district or districts. The Act does not require that the district should necessarily be united to another rural district; and its provisions would apparently be complied with if the district were united to a neighbouring urban district, although usually, no doubt, the proper course would be to unite it with a neighbouring rural district. The district might, however, be divided by the order of the county council, part being added to one neighbouring district and part to another.

In any case where a new rural district is formed by the Act, and in any other case where there is any doubt as to the name of a rural district, the county council will have to direct what shall be the name of the district.

Cases where a parish within a rural sanitary district overlaps the boundary of the county will be more complicated. In these cases arrangements must be made to prevent the overlapping of the county boundary by the parish, even if the rural district is allowed to be in more than one county. As a rule, it would seem in these cases that the parish should be divided by order of the county council, but the Act will admit of an alteration of the county boundary if that course seems expedient.

It is to be borne in mind that the Act itself does not form separate parishes of the parts of a parish situate in different administrative counties. The division under sub-section (5) of section 24 of a rural sanitary district comprising such a parish will not affect the parish in this respect, but the parish will have to be divided by order of the county council, unless the county boundary is altered so as to include the whole of the parish in one county. Where a parish is so divided, the order of the county council must contain directions as to the number of guardians and district councillors to be elected for each of the new parishes formed by the order.

The alteration of a rural district by or in pursuance of the Act will not affect the area of the poor law union with which at present the district is co-extensive, or in which it is comprised, but where the alteration of a poor law union seems expedient by reason of any of the provisions of the Act, the county council are empowered by sub-section (6) of section 36, to provide by their order for such alteration.

Where the alteration of the boundary of a county is deemed expedient for any of the purposes mentioned in section 36, application should, as already indicated, be made to the Board for an order under section 54 of the Local Government Act, 1888. If it is proposed that the boundary of a borough should be altered for these purposes a like application should be made. (Section 35 (5).)

Where the alteration of the boundary of any parish, or the division thereof, or the union thereof, or of part thereof with another parish, seems expedient for any of the purposes of the Act, provision for such alteration, division, or union may be made by an order of the county council under section 57 of the Act of 1888. (Section 36 (8).)

The provisions of section 59 of the Local Government Act, 1888, will apply to any order for the purposes of the present Act that may be made under section 57 of that Act, and section 69 of the new Act provides that in any case where an alteration of any area is made by the Act, an order may be made by the county council, or, in the case of an area situate in more than one county, by a joint committee of county councils, for any of the matters mentioned in section 59 of the Act of 1888. Under these powers adjustments may be made of any property, debts, and liabilities affected by the alteration, and directions may be given for effecting any subsidiary arrangements rendered necessary by the alteration.

Sub-section (12) of section 36 requires that every report made by the Boundary Commissioners under the Local Government Boundaries Act, 1887, shall be laid before the council of any administrative county affected by that report, and before any joint committees of county councils. The sub-section further provides that it shall be the duty of the councils and joint committees

to take these reports into consideration before framing any order under the powers conferred on them by the Act. The county council will not be bound to give effect to the recommendations of the Commissioners, but the reports in question will be found to be of assistance in arriving at a decision in regard to any matter dealt with therein.

II.—Parish Councils.

Under section 3 of the Act the county council are required to fix the number of councillors to be elected for each rural parish which will have a parish council. The number is to be not less than 5 nor more than 15, and it should be fixed sufficiently early for proper arrangements to be made for the candidature of persons desirous of offering themselves for election at the first election.

In any case where there is any doubt as to the name of the parish for which a parish council is elected, the name will be such as the county council after consultation with the parish meeting may direct. (Section 3 (9).)

The county council may be applied to by the parish council, or not less than one-tenth of the parochial electors of a parish, or before the appointed day by the vestry or a like number of the ratepayers of the parish, to divide the parish into wards for the purpose of electing parish councillors; and on being satisfied that the area or population of the parish is so large, or different parts of the population so situated, as to make a single parish meeting for the election of councillors impracticable or inconvenient, or that it is desirable for any reason that certain parts of the parish should be separately represented on the council, the county council may make an order for the purpose. The order must fix the boundaries of the wards and the number of councillors to be elected for each ward. In making the order regard must be had to the population according to the last published census for the time being, and to the evidence of any considerable change of population since that census, and to area and to the distribution and pursuits of the population, and to all the circumstances of the case. (Sections 18 and 84 (3).)

Section 1 of the Act provides for the grouping of two or more parishes under a common parish council, subject to the proviso that parishes shall not be grouped without the consent of the several parish meetings. For this purpose the section enacts that an order may be made by the county council under Part III. of the Act.

The county council may, with the consent of the parish meetings, make such an order either on their own initiative, or on the application of the parish meeting of any of the parishes proposed to be grouped. If any such application is made, it must be taken into consideration forthwith. (Section 38 (4).)

The whole of the parishes to be formed into a group should, as a rule, be within the same county and county district, but if there are special reasons for grouping parishes in adjoining counties or county districts, the county council may depart from the rule. (Section 38 (2).)

The order must make provision for the name of the group, and, as under section 1, each of the grouped parishes is to have a separate parish meeting, it must make any necessary provisions as to this also. It is further enacted that a grouping order shall provide for the election, in manner provided by the Act, of separate representatives of each parish on the parish council, and that it may provide for the consent of the parish meeting of a parish to any particular act of the parish council, or for any other adaptations of the Act to the group of parishes, or to the parish meetings in the group. The mode of election of parish councillors is determined by sections 3 and 48. Further, the grouping order must provide for the application of the provisions contained in sections 14 and 17 of the Act with respect to the appointment of trustees and beneficiaries of charities, and the custody of documents, so as to preserve the separate rights of each parish.

The county council will be empowered to order the establishment of parish councils in rural parishes which, according to the census of 1891, have a population of less than 300. (Section 1.) If in the case of a rural parish with less than 300 but more than 100 inhabitants, the parish meeting so resolve, the county council must, by an order under part III. of the Act, provide for the establishment

establishment of a parish council. In this case, the county council will have no alternative but to issue the order if the necessary resolution is passed.

In regard to any rural parish with less than 100 inhabitants, the county council may issue an order establishing a parish council, if the parish meeting consent, but the parish will have no right to demand that a parish council should be established. The grant of a parish council will be in the discretion of the county council. Subject, however, to the necessity for obtaining the consent of the parish meeting the county council may act in these cases on their own initiative; but if the population of a parish is less than 200 the parish meeting may apply for a parish council under sub-section (4) of section 38, and any such application must forthwith be taken into consideration by the county council.

Where a rural parish is co-extensive with a rural sanitary district, sub-section (4) of section 36 provides that until the district is united to some other district or districts, and unless the county council otherwise direct, a separate election of a parish council shall not be held for the parish, but the district council shall in addition to their own powers have the powers of and be deemed to be the parish council. In these cases, therefore, it will rest with the county council to determine whether the rule laid down in the sub-section should be departed from; and in any such case it will be competent to the county council to make an order directing that a parish council shall be elected for the parish. There is no special reason, however, why these cases should be dealt with before the first elections under the Act.

III.—Guardians and District Councillors.

Under section 60 of the Act, the county council will have power to fix or alter the number of guardians or rural district councillors to be elected for each parish within their county, and it is provided that for those purposes the council may exercise powers of adding parishes to each other and dividing parishes into wards, similar to those which by the Acts relating to the relief of the poor are, for the purpose of the election of guardians, vested in the Board.

The power to add parishes to each other for the purpose of the election of guardians is conferred on the Board by section 6 of the Poor Law Amendment Act, 1868 (31 & 32 Vict. c. 122). That section provides that the Board may add any parish in a union, the population of which does not exceed 300, and the aggregate rateable value of which does not exceed the average rateable value of the parishes in the same union, to some adjoining parish in the union for the purpose of the election of guardians. The county council will thus be able to add any such parish, if it is an urban parish, to any other urban parish in the union, for the purpose of the election of guardians, and to add any such parish, if it is a rural parish, to any other parish in the rural district for the purpose of the election of rural district councillors; but they will not be able to add an urban parish to a rural parish, or *vice versâ*.

The power conferred on the Board by the Poor Law Acts to divide parishes into wards for the election of guardians is contained in section 12 of the Divided Parishes and Poor Law Amendment Act, 1876 (39 & 40 Vict. c. 61), which enables the Board to divide any parish into wards for the election of guardians and to determine the number of guardians to be elected for each ward, due regard being had to the value of the rateable property therein.

Under sections 20, 24, and 60 of the new Act, the county council will regulate the retirement of guardians and rural district councillors. The first of these sections provides generally that the term of office of a guardian shall be three years, and that one-third, as nearly as may be, of every board of guardians shall go out of office on the 15th April in each year. Where, however, the county council on the application of a board of guardians consider that it would be expedient to provide for the simultaneous retirement of the whole Board, they may direct that the members shall retire together on the 15th April in every third year. Where a union is in more than one county, an order for this purpose may be made by a joint committee of the councils of the counties concerned. There are some cases in which at the present time the whole of the guardians retire at the end of every third year in pursuance of an

order of the Board, and in these cases the guardians are to continue so to retire, unless the county council, or a joint committee of the county councils, on the application of the board of guardians, or of any district council of a district wholly or partially within the union, otherwise direct.

Section 24 makes the provisions of the Act with respect to the term of office and retirement of guardians applicable to the district councillors of a rural district. In any case where such a district is in more than one union, it will be necessary to secure that the mode of retirement of the guardians of the unions shall be the same, as otherwise there may be serious difficulties in connection with the constitution of the district council.

Section 60 provides that the council of each county may for the purpose of regulating the retirement of guardians or rural district councillors, in cases where they retire by thirds, direct in which year or years of each triennial period the guardians or district councillors for each parish, ward, or other area in the union or rural district shall retire.

Where the union is situate in more than one county, the power of fixing or altering the number of guardians or rural district councillors, and of regulating the retirement of guardians and of district councillors, is to be exercised by a joint committee of the councils of the counties concerned; but if any of those councils do not, within two months after request from any other of them, appoint members of such joint committee, the members of the committee actually appointed will have power to act as the joint committee. If any order made by a joint committee under this provision is within six weeks after the making thereof objected to by any of the county councils concerned, or by any committee of any of those councils authorised in that behalf, the order will be inoperative until confirmed by the Board. (Section 59.)

Where the guardians and rural district councillors are to retire by thirds, in accordance with the rule prescribed by section 20, it will be necessary, as the full number of guardians or district councillors will be elected at the first election, to provide for retirements in the years 1896 and 1897. There will be no retirements under the Act before 1896. (Section 78.) The question as to the guardians and rural district councillors who will have to retire in the two years mentioned, is under sub-section (4) of section 79 to be determined by the county council with reference to the parishes, wards, or other areas for which the guardians or councillors are elected.

IV.—Highways.

Section 25 of the Act provides that as from the appointed day, there shall be transferred to the district council of every rural district all the powers, duties, and liabilities of any highway authority in the district, that highway boards shall cease to exist, and that rural district councils shall be the successors of the highway authorities. It is, however, enacted that the council of any county may by order postpone within their county, or any part thereof, the operation of this section, so far as it relates to highways, for a term not exceeding three years from the appointed day or such further period as may, on the application of the county council, be allowed by the Board.

The expression "highway authority" as used in the Act, means as respects a highway district, the highway board, or authority having the powers of a highway board, and as respects a highway parish, the surveyor or surveyors of highways, or other officers performing similar duties. (*See* Local Government Act, 1888, section 100; Local Government Act, 1894, section 75.)

The effect of section 25 will be that all these highway authorities will cease to exist on the day on which the first rural district councillors come into office, and that the rural district councils will thereupon become the highway authorities, unless the county councils postpone the operation of the section.

By section 79, persons who are members of highway boards at the passing of the Act will be continued in office until the day on which the first rural district councillors come into office, that is, as at present fixed, the second Thursday after the 8th of November next, as if the terms of office for which they were elected expired on that day, and consequently the usual annual election of waywardens will not take place.

The

The election of surveyors of highways under the Highway Act, 1835, will, however, take place, as usual, at the first meeting in vestry for each parish, not in a highway district, for the nomination of overseers in the present year.

An order under section 25 is, by section 84, to make such provision as may be necessary for holding elections of highway boards in any interval during which the operation of section 25 is postponed. This provision will enable the county council to give directions in their order for the election of waywardens in place of those who will cease to hold office, as mentioned above, when the rural district councillors come into office, and also to order for what period such waywardens shall be elected, having regard to the period of postponement.

No similar provision appears, as a rule, to be required as regards the annual election of surveyors for parishes not in highway districts during the interval referred to, and the effect of the postponement of the operation of section 25 would seem to be that in such a case surveyors will continue to be elected from year to year so long as necessary. But in the case of new rural parishes formed by or in pursuance of the Act, it may be necessary, in the event of the county council postponing the operation of section 25 to provide for the election of surveyors to act for periods until the next ordinary time for electing surveyors.

This course would not be requisite as regards a parish partly within and partly without an urban district, which by virtue of section 216 of the Public Health Act, 1875, is at the present time treated as wholly within the urban district for highway purposes, because, if the county council postpone the operation of section 25, the part of the existing parish which is outside the urban district will continue subject to section 216 of the Act of 1875 until the rural district council become the highway authority, notwithstanding that it may have become a separate parish.

V.—Miscellaneous.

Sub-section (7) of section 48 of the Act requires the county council to fix a scale for the expenses of elections under the Act, *i.e.*, of elections of parish and district councillors and guardians. If, at the beginning of one month before the first election, the county council have not framed any such scale for their county, the Board will have power to frame a scale for the purposes of that election. The Board will be glad to receive a copy of the scale framed by the county council under this section, as soon as it has been approved by the council.

Under sections 48 and 80 the county council will have very extensive powers for the removal of any difficulties that may arise in connection with the election of parish and district councillors and guardians, and generally in bringing the Act into operation within their county. Sub-section (5) of section 48 provides that if any difficulty arises as respects the election of any individual councillor or guardian, and there is no provision for holding another election, the county council may order a new election to be held and give such directions as may be necessary for the purpose of holding the election.

Under section 80, if any difficulty arises with respect to the holding of the first parish meeting of a rural parish, or to the first election of parish or district councillors, or of guardians, or to the first meeting of a parish or district council, or board of guardians, or if, from no election being held, or an election being defective or otherwise, the first parish or district council, or board of guardians, has not been properly constituted, the county council may, by order, make any appointment or do any thing which appears to them necessary or expedient for the proper holding of any such first meeting or election, and properly constituting the parish or district council or board of guardians. They may, if it appears to them necessary, direct the holding of a meeting or election, and fix the necessary dates for the purpose. Any such order may modify the provisions of the Act, and the enactments applied by, or rules framed under it so far as may appear to the county council necessary or expedient for carrying the order into effect.

If a parish council or a district council, other than a borough council, become unable to act, whether from a failure to elect or otherwise, the county council may order elections to be held and may authorise persons to act temporarily in place of the parish or district council, and the chairman of the parish council. (Section 47 (5) and section 59 (5).)

Under section 17 each parish council will be empowered to appoint an unpaid treasurer, and this officer is to give such security as may be required by regulations of the county council. It is desirable that such regulations should be made before the parish councils come into office. They may provide both as to the character and as to the amount of the security to be taken from the treasurers, and the Board suggest that they should be so framed as to require such security to be given by these officers as will be sufficient to cover the amount likely to be in their hands belonging to the parish councils at any one time.

It is now necessary to refer to the provisions which will govern the procedure of the county council in regard to the issue of orders for the purposes mentioned above.

Sub-section (10) of section 36 directs that, subject to the provisions of the Act, any order made by a county council in pursuance of Part III. of the Act (as to areas and boundaries) shall be deemed to be an order under section 57 of the Local Government Act, 1888. Every such order will consequently have to be made in accordance with the provisions of that section, and of the regulations issued by the Board thereunder, and, with the exceptions mentioned in section 40 of the Act (to which attention should be specially directed), will require confirmation by the Board in the manner prescribed by section 57 of the Act of 1888.

An important amendment of the section referred to is made by section 41 of the new Act, which provides that the time for petitioning to the Board against an order of a county council under the section shall be six weeks instead of three months after the first notice of the provisions of the order.

The Act also provides that any board of guardians affected by an order under Part III. of the Act, are to have the same right of petitioning against the order as is given by section 57 of the Act of 1888 to other authorities (section 36 (10)); and that where any of the areas referred to in section 57 of the Act of 1888 is situate in two or more counties, or the alteration of any such area would alter the boundaries of a poor law union situate in two or more counties, a joint committee appointed by the county councils concerned is, subject to the terms of delegation, to be deemed to have and to have always had power to make orders under the section with respect to that area. Section 36 (11).)

An order made under section 60 of the new Act as to the number or retirement of guardians or rural district councillors will, as already mentioned, require confirmation by the Board if, in the case of a union situate in more than one county, the order is objected to by any of the county councils concerned, or by a committee of any of those councils authorised in that behalf.

Among the orders that will not be subject to the provisions of section 57 of the Act of 1888, and will not require to be submitted to the Board, are orders of the county council fixing the number of parish councillors for a parish or dividing a parish into wards for the election of parish councillors.

An order made by the county council under section 25, postponing within their county or some part thereof the operation of that section as regards highways will not require the confirmation of the Board, although, if it is proposed to postpone the operation of the section for more than three years from the appointed day, the postponement will require allowance by the Board.

In connection with the orders of the county council under this Act, it may be pointed out that by section 42 it is provided that in any case where an order under section 57 of the Act of 1888 (including any order made or deemed to have been made thereunder for the purposes of this Act) has been confirmed by the Board, such order is at the expiration of six months from the date of confirmation to be presumed to have been duly made, and to be within

within the powers of that section, and no objection to the legality thereof can be entertained.

A copy of every order made by a county council or joint committee in pursuance of the Act is to be sent to the Board, and, if it alters any local area or name, a copy must be sent also to the Board of Agriculture (section 71).

Sub-section (2) of section 80 requires that the Board shall issue regulations for expediting and simplifying the procedure under section 57 of the Act of 1888 in all cases in the year 1894, for the purpose of bringing the Act into immediate operation.

The Board have issued an order for this purpose, which, as regards the cases referred to, will take the place of the regulations made by them on the 14th September 1889, except where notice of a local inquiry has been given before the date of the order.

It will be found that the new regulations materially expedite and simplify the procedure under section 57 of the Act of 1888, and the Board may draw special attention to the provisions in Article VIII. (3). In cases in which an order made under the section does not require confirmation by the Board, it has hitherto been necessary that the order, after having been made, should be again approved by the county council after certain notices have been given and a specified interval has elapsed. The effect of the provision in Article VIII. (3) will be that no final approval on the part of the county council will be requisite, if the requirements of Articles IV. and VIII. have been complied with.

It will also be observed that under Article IX. the expression "county council," as used in the order, will include a committee of the county council, to whom they have delegated their powers under the Act of 1894, and also a joint committee appointed by any county councils for the purpose of dealing with any cases in which they are jointly interested.

The Board enclose six copies of the order, and they have caused it to be placed on sale. If, therefore, further copies are required, they can be purchased from Messrs. Eyre and Spottiswoode, East Harding-street, London, E.C., either directly or through any bookseller. Copies of this circular can also be purchased in the same way.

It has sometimes been pointed out by county councils that no provision was made by the Local Government Act, 1888, as to the expenses of inquiries held by them under the Act. It is now provided by sub-section (4) of section 72 of the new Act, that where a county council hold a local inquiry under the Act or under the Act of 1888 on the application of a parish council or district council, or of any inhabitants of a parish or district, the expenses incurred by the county council in relation to the inquiry (including the expenses of any committee or person authorised by the county council) are to be paid by the council of that parish or district, or, in the case of a parish which has not a parish council, by the parish meeting. Subject to this, however, the expenses of the county council incurred in the case of inquiries under the Act must be paid out of the county fund.

Section 44 contains provisions as to the register of the parochial electors which is to be formed alike for urban and for rural parishes for the purposes of elections under the Act. The Board do not consider it necessary to refer to these provisions in detail; but the attention of the county council should be directed to the proviso to sub-section (3) of section 84, under which, if the county council have under consideration any division into wards or alteration of the boundaries of any parish, or union, or district which is to affect the first election, they may direct that the lists of voters shall be framed in parts corresponding with such division or alteration so that the parts may serve either for the unaltered parish, union, or district, or for the same when divided or altered.

In making any such division or alteration at any time in the month of July or August next, the county council may direct their clerk to make such adjustment of the registers of parochial electors as the division or alteration may render necessary for enabling every parochial elector to vote at the first election in the ward, union, or district in which his qualification is situate, and it will, of course, be the duty of the clerk to give effect to any such direction (section 84).

The orders of the county conncils altering areas may direct that for the purpose of preparing the lists and registers of electors for the first elections of parish and district councillors, the orders shall take effect at such time as to enable the overseers to make out the lists for the altered areas, although the areas will not be actually altered until the appointed day.

Numerous powers and duties besides those which have been indicated above are conferred on county councils by the Act, but the Board do not think it necessary to specify them on this occasion, as their present purpose is to bring under the notice of the county council those powers and duties which may have to be exercised for the purpose of bringing the Act into operation, and they believe that they have now mentioned all that need be referred to with this object.

It is evident that in order that effect may be given to the intentions of the legislature, is is requisite that the county councils should without delay set about the exercise of the important powers which have been entrusted to them. As the Board have already pointed out, section 83 makes it the duty of every county council to exercise all such of their powers as may be required for bringing the Act into full operation within their county as soon as may be after its passing, and enables them to delegate their powers under the Act to a committee, and the Board feel assured that they may rely on every effort being used by the county council to bring the Act into full operation in their county at the earliest possible date.

The Board strongly recommend them forthwith to appoint a committee for carrying out the Act if they have not already done so, and to delegate to such committee their powers under it.

They also recommend that either such committee or the council should at once place themselves in communication with the councils of the other counties in which parishes or rural sanitary districts partly within and partly without the county are situate, with a view to the immediate appointment of any joint committees necessary to enable such cases to be dealt with.

The Board would further suggest that the clerks to rural and urban sanitary authorities should, as soon as possible, be applied to for information as to whether the districts of those authorities come within the cases mentioned in section 36 of the Act, or contain parishes or parts of parishes which are within those cases. In the meantime, the Parliamentary Returns relating to counties and poor law parishes, of which copies are enclosed, will give the most recent information that has been published as to the cases where parishes and rural sanitary districts are in more than one county. The Return relating to poor law parishes also shows the number of parishes partly in rural sanitary districts. The names of parishes partly in urban sanitary districts may be obtained from the tables numbered 4 in the second volume of the Report on the census of 1891, but there have been alterations since the date of the census, and these tables may not now be quite accurate.

As regards the matters referred to under the head of parish councils, the Board have already pointed out that the number of councillors should be fixed sufficiently early for proper arrangements to be made for the candidature of persons desirous of offering themselves for election at the first election. With this exception, it would seem that unless application is made by the vestry, or one-tenth of the ratepayers of a parish, to divide the parish into wards, it will not devolve on the county council to make any orders with respect to these matters before the appointed day. By section 36 the council are required to take into consideration the cases of small rural parishes, but no order for the grouping of such parishes, or the establishment of parish councils therein, could actually be made without the consent of the parish meeting given after the appointed day.

As regards section 25 of the Act, it will of course be necessary that any order postponing the transfer of the powers of highway authorities should be made before the appointed day.

Some

Some inquiries have been addressed to the Board with respect to the meaning of the word "parish" as used in the Act. They may state, therefore, that it bears the meaning given to it by section 5 of the Interpretation Act, 1889 (52 & 53 Vict. c. 63), which provides that unless the contrary intention appears, the expression shall mean a place for which a separate poor rate is or can be made, or for which a separate overseer is or can be appointed.

(Enclosure in No. 5).

ORDER of the 22nd March 1894.
(No. 30868.)

LOCAL GOVERNMENT ACT, 1888, and LOCAL GOVERNMENT ACT, 1894.

REGULATIONS as to Inquiries and Notices during 1894.

To the County Councils for the several Administrative Counties in England and Wales, and to all others whom it may concern.

WHEREAS by sub-sections (1), (2), and (3) of section 57 of the Local Government Act, 1888, it is enacted as follows:—

"(1.) Whenever a county council is satisfied that a *primâ facie* case is "made out as respects any county district not a borough, or as respects "any parish, for a proposal for all or any of the following things; that "is to say,—

"(*a*) The alteration or definition of the boundary thereof;

"(*b*) The division thereof or the union thereof with any other such "district or districts, parish or parishes, or the transfer of part of a "parish to another parish;

"(*c*) The conversion of any such district or part thereof, if it is "a rural district, into an urban district, and if it is an urban district, "into a rural district, or the transfer of the whole or any part of any "such district from one district to another, and the formation of new "urban or rural districts;

"(*d*) The division of an urban district into wards; and

"(*e*) The alteration of the number of wards, or of the boundaries "of any ward, or of the number of members of any district council, "or of the apportionment of such members among the wards,

"the county council may cause such inquiry to be made in the locality, "and such notice to be given, both in the locality, and to the Local "Government Board, Education Department, or other Government "Department as may be prescribed, and such other inquiry and notices "(if any) as they think fit, and if satisfied that such proposal is desirable, "may make an order for the same accordingly.

"(2.) Notice of the provisions of the order shall be given, and copies "thereof shall be supplied in the prescribed manner, and otherwise as the "county council think fit, and if it relates to the division of a district into "wards, or the alteration of the number of wards or of the boundaries of "a ward, or of the number of the members of a district council, or of "the apportionment of the members among the wards, shall come into "operation upon being finally approved by the county council.

 "(3.) In

"(3.) In any other case the order shall be submitted to the Local "Government Board; and if within three months after such notice of the "provisions of the order as the Local Government Board determine to be "the first notice, the council of any district affected by the order, or any "number of county electors registered in that district or in any ward of "that district, not being less than one-sixth of the total number of electors "in that district or ward, or if the order relates only to a parish, any "number of county electors registered in that parish, not being less than "one-sixth of the total number of electors in that parish, petition the "Local Government Board to disallow the order, the Local Government "Board shall cause to be made a local inquiry, and determine whether "the order is to be confirmed or not."

And whereas by sub-section (4) of section 87 of the said Act it is enacted that—

"Where any matter is authorised or required by this Act to be "prescribed, and no other provision is made, declaring how the same is "to be prescribed, the same shall be prescribed from time to time by the "Local Government Board."

And whereas We, the Local Government Board, by an order dated the 14th day of September, 1889, prescribed certain regulations with respect to the inquiries to be made and the notices to be given for the purposes of the said section 57 of the Local Government Act, 1888, the manner of giving such notices, and the several other matters to be prescribed and determined for the purposes of the said section;

And whereas by Part III. of the Local Government Act, 1894, power is given to county councils to make various orders in relation to areas and boundaries and other matters as therein mentioned;

And whereas by sub-sections (10) and (11) of section 36 of the said Act, which is included in Part III. thereof, it is enacted that—

"(10.) Subject to the provisions of this Act, any order made by a "county council in pursuance of this part of this Act shall be deemed to "be an order under section 57 of the Local Government Act, 1888, and "any board of guardians affected by an order shall have the same right of "petitioning against that order as is given by that section to any other "authority.

"(11.) Where any of the areas referred to in section 57 of the Local "Government Act, 1888, is situate in two or more counties, or the "alteration of any such area would alter the boundaries of a poor law "union situate in two or more counties, a joint committee appointed by "the councils of those counties shall, subject to the terms of delegation, "be deemed to have and to have always had power to make orders under "that section with respect to that area; and where at the passing of this "Act a rural sanitary district or parish is situate in more than one county, "a joint committee of the councils of those counties shall act under this "section."

And whereas by section 41 of the said Act it is enacted that—

"The time for petitioning against an order under section 57 of the "Local Government Act, 1888, shall be six weeks instead of three "months after the notice referred to in sub-section (3) of that section."

And whereas by sub-section (2) of section 80 of the said Act it is enacted that—

"The Local Government Board shall make regulations for expediting "and simplifying the procedure under section 57 of the Local Government "Act, 1888, in all cases in the year 1894, for the purpose of bringing "this Act into immediate operation, and such regulations may dispense "with the final approval of an order by the county council in cases where "the prescribed notice of the proposed order has been given before it is "made by the county council."

And

And whereas by section 75 of the said Act it is enacted that, in that Act, unless the context otherwise requires, the expression "prescribed" means prescribed by order of the Local Government Board;

And whereas by section 83 of the said Act it is enacted that a county council may delegate their powers under the Act to a committee:

Now therefore, We, the Local Government Board, in pursuance of the powers given to us in that behalf, by this our order make the regulations following for expediting and simplifying the procedure under section 57 of the Local Government Act, 1888, in all cases in the year 1894, for the purpose of bringing the said Local Government Act, 1894, into immediate operation, and do prescribe and determine as follows; that is to say,—

Article I. This order shall, unless we shall otherwise direct, regulate the procedure under section 57 of the Local Government Act, 1888, in all cases in the year 1894, for the purpose of bringing the Local Government Act, 1894, into immediate operation, except cases in which notice of a local inquiry has been given before the date of this order; and the said order dated the 14th day of September, 1889, shall not apply in any case to which this order applies.

Article II. (1.) A local inquiry, at which all persons interested may attend and be heard, shall, prior to any order being made by a county council under section 57 of the Local Government Act, 1888, be held in regard to the proposal, either by a committee of the county council, or by some person appointed by the county council to hold such inquiry, as the council may direct.

(2.) The said inquiry shall, unless the county council otherwise determine, be held at some convenient place in the county district, or in one of the county districts, proposed to be dealt with, or in the county district within which is situate the parish, or one of the parishes, proposed to be dealt with, or at such place in the neighbourhood as may, in the opinion of the committee or person by whom the inquiry is to be held, be most convenient for the purpose.

(3.) At least 10 days before the day when the inquiry is to be held, public notice of the purport of the proposal, and of the day, time, and place fixed for the inquiry in regard to it, shall be given by the county council by advertisement in some local newspaper circulating in the locality to which the proposal relates.

Article III.—At least 10 days before the day when any such local inquiry is to be held, a printed notice of the purport of the proposal, and of the day, time, and place for the inquiry shall also be published in the manner hereinafter prescribed, and shall be sent to the several Government Departments and local or other authorities hereinafter specified; that is to say:

(1.) A copy of the said notice shall be posted as a bill or placard in such places in the county district or districts or parish or parishes interested in the proposal as are ordinarily made use of for posting public or parochial notices.

(2.) In any case where the proposal relates to the alteration of or other dealing with any sanitary district, a copy of the notice shall be sent by the county council to the sanitary authority of such district.

(3.) In any case where the proposal relates to the alteration of or other dealing with any parish, a copy of the notice shall be sent by the county council to the overseers of the poor of such parish; to the guardians of the poor of the union, in which such parish is comprised; to the school board (if any) for such parish or for any part thereof; to the highway authority or authorities of the parish; to the burial board (if any) for such parish or for any part thereof; and to the urban sanitary authority (if any) in whose district such parish or any part thereof is comprised.

(4.) A copy of the notice shall be sent by the county council to any local authority, which, in the opinion of the county council, is specially interested in the proposal.

(5.) A copy of every such notice shall be sent by the county council to the Local Government Board; and in any case where the proposal relates to the alteration of any area of local government, a copy of the notice shall be sent by the county council to the Board of Agriculture, the Public Works Loan Commissioners, the Director General of the Ordnance Survey, at Southampton, and to the Registrar General; and in any case where the proposal relates to the alteration or definition of the boundary of any parish, a copy of the notice shall be sent to the Education Department.

Article IV.—(1.) If the case is one in which any order made by a county council under section 57 of the Local Government Act, 1888, requires confirmation by the Local Government Board, public notice of the provisions of any such order made by a county council shall be given by the county council by advertisement in some local newspaper circulating in each district or parish affected by the order, and such advertisement shall be published within ten days after the making of the order.

(2.) If the case is one in which any order made by a county council under section 57 of the Local Government Act, 1888, does not require confirmation by the Local Government Board, public notice of the proposed order shall, after the inquiry required by Article II. hereof has been held, and not less than 21 days before the meeting of the county council at which the order is proposed to be made, be given by the clerk to the county council, by advertisement in some local newspaper circulating in each district affected by the order.

(3.) Any advertisement issued in pursuance of this article shall contain either a copy of the order, or proposed order, as the case may be, or a statement of the effect of the order, or proposed order, and shall also contain a statement of the time and place or places, during and at which copies of the order, or proposed order, may be inspected by any owner or ratepayer in any area affected by the order, or proposed order, during a period of 14 days from the date of the publication of such advertisement, and the order, or proposed order, shall be open for such inspection during such period.

(4.) There shall be appended to any proposed order or statement of a proposed order advertised or deposited for inspection in pursuance of this article, a notice to the effect that any person interested in the proposed order who objects thereto, may attend and be heard at a meeting of the county council to be held on a day and at a time which shall be mentioned in the notice if, not less than three days before the date of the meeting, he sends to the clerk of the council a statement in writing of the nature of his objection.

Article V.—(1.) A copy of any order made or proposed to be made by a county council as aforesaid shall, at any time while copies of the order, or proposed order, are open to inspection as aforesaid, and in the case of an order which requires to be confirmed by the Local Government Board, at any time before the expiration of six weeks, from the publication of the advertisement in pursuance of Article IV. (1) hereof, be supplied by the clerk to the county council to any owner or ratepayer, in any area affected by the order, or proposed order, upon payment by such owner or ratepayer of a sum not exceeding threepence for each 100 words of manuscript if the copy of the order, or proposed order, be in writing, or upon payment of a sum not exceeding threepence for a printed copy of the order, or proposed order.

(2.) A copy of a proposed order supplied in pursuance of this article shall contain a notice to the effect specified in Article IV. (4.) hereof.

Article VI.—On or before the date of the publication in pursuance of Article IV. (1) hereof of the advertisement of the provisions of any order made as aforesaid and requiring confirmation by the Local Government Board, three copies of the order shall be forwarded to the Local Government Board and to each of the other Government Departments to whom a copy of the notice of the inquiry relative to the proposed order was, by Article III. hereof, required

required to be sent; a copy of the order shall also be sent to each of the local or other authorities to whom a copy of such notice was so required to be sent, and a copy shall also be posted in like manner as the notice of the inquiry was, in pursuance of the same Article, required to be posted.

Article VII.—The advertisement in pursuance of Article IV. (1) hereof of the provisions of any order made by a county council under section 57 of the Local Government Act, 1888, and requiring confirmation by the Local Government Board, shall be deemed to be the "first notice" for the purposes of sub-section (3) of that section as amended by section 40 of the Local Government Act, 1894.

Article VIII.—(1.) If the case is one in which any order made under section 57 of the Local Government Act, 1888, does not require confirmation by the Local Government Board, a copy of the proposed order shall, on or before the date of the publication in pursuance of Article IV. (2) hereof of the advertisement of the provisions of the proposed order, be sent to each of the Local or other Authorities to whom a copy of the notice of the inquiry relative to the proposed order was, by Article III. hereof, required to be sent, and a copy shall also be posted in like manner as the notice of the inquiry was in pursuance of the same Article required to be posted.

(2.) Any such copy shall contain a notice to the effect specified in Article IV. (4) hereof.

(3.) The final approval of the county council of any such order may be dispensed with, if the requirements of Article IV. hereof and of this Article have been complied with.

(4.) When any such order has been made by a county council three copies thereof shall forthwith be forwarded to the Local Government Board and to each of the other Government Departments to whom a copy of the notice of the inquiry was required by Article III. hereof to be sent, and a copy of the order shall also be at the same time sent to each of the Local or other Authorities to whom a copy of such notice was so required to be sent.

Article IX.—The expression "county council" in this order shall include a committee to whom the county council have delegated their powers under the Local Government Act, 1894, and also a joint committee appointed by any county councils of administrative counties for the purpose of dealing with any case or cases in which such councils are jointly interested, and, in any such last-mentioned case, references in this order to the county shall be deemed to refer to either of the counties interested, and references to the clerk to the county council to any person acting as clerk to the joint committee or appointed by such committee to discharge the duties of the clerk to a county council under this order.

Given under the Seal of Office of the Local Government Board, this Twenty-second day of March, in the year One thousand eight hundred and ninety-four.

CIRCULAR to Clerks of County Councils, Town Clerks, and Returning Officers of Parliamentary Boroughs which are not Municipal Boroughs.

Local Government Board, Whitehall, S.W.,
Sir, 2 April, 1894.

I AM directed by the Local Government Board to state that several inquiries have been addressed to them as to whether, in view of the provisions of the Local Government Act, 1894, it is intended that an Order in Council should be issued to amend, for the purposes of the approaching registration of electors, the instructions, precepts, notices and forms prescribed by the Registration Order, 1889. The Board direct me to state that it is not proposed at present to issue an Order in Council on the subject; but they think it very desirable that the attention of the overseers should be specially drawn to the duties imposed upon them by the Act, in connection with the enfranchisement of married women for the purposes of the Act and the preparation of the lists of electors, and they suggest that this might conveniently be done by a note attached to your precept and issued with it.

The provisions to which the attention of the overseers should be drawn are those contained in section 43 and sub-sections (3) and (9) of section 44 of the Act.

Section 43 enacts that, for the purposes of the Act, a woman shall not be disqualified by marriage for being on any local government register of electors, or for being an elector of any local authority, provided that a husband and wife shall not both be qualified in respect of the same property.

Sub-section (3) of section 44 requires that the lists of electors in any parish shall be framed in parts for wards of urban districts and parishes in such manner that they may be conveniently used as lists for polling at elections for any such wards; and subsection (9) of this section provides that any person may claim for the purpose of having his name entered in the parochial electors' list, and that the law relating to claims to be entered in lists of voters shall apply.

The Board direct me to add that in the preparation of the lists of electors regard should be had to the provision in section 1 (3) of the Act, under which parishes situate partly within and partly without a rural sanitary district will be divided into separate parishes, and the attention of the Overseers might with advantage be called to this point also.

I am, &c.,
To the Clerk of the County Council, Town Clerk, or Returning Officer. (signed) *Hugh Owen*, Secretary.

CIRCULAR to Boards of Guardians.

Local Government Board, Whitehall, S.W.,
Sir, 3 April 1894.

I AM directed by the Local Government Board to state that inquiries have been addressed to them as to the effect of the Local Government Act, 1894, as regards the term of office of the present chairmen and vice-chairmen of boards of guardians, and the continuance in office of committees appointed by the guardians.

The Board direct me to point out that section 79 (8) of the Act, which continues in office, until the day on which the first guardians and rural district councillors elected under the Act come into office, the persons who were members

members of boards of guardians and of rural sanitary authorities at the date of the passing of the Act, does not refer to the chairmen or vice-chairmen or members of committees, as such.

In those cases where the orders in force require that the election of chairmen and vice-chairmen should take place at the first meeting of the guardians after the 15th April, the period of office of the chairmen or vice-chairmen will not be affected, and they must therefore be elected at the usual time this year.

As regards an Assessment Committee appointed under the Union Assessment Committee Acts, it appears to the Board that the Committee must be regarded as having been appointed for one year only, and consequently that they must be re-appointed in the present year at the usual time.

In the case of a School Attendance Committee, section 7 of the Elementary Education Act, 1876, expressly provides that the appointment of the Committee shall be made annually, and the Board consider that this Committee should be appointed by the guardians at their first meeting after the date on which the election of guardians would have taken place if an election had been held this year at the usual time (see Rule 6 of the Second Schedule to the Act of 1876).

The Visiting Committee, however, will, in the opinion of the Board, continue in office until after the election of the new board of guardians in November next, unless the Committee were definitely appointed for a limited period only.

A Relief Committee will, subject to the terms of the Order authorising the appointment of the Committee, continue in office until November next without re-appointment, unless the Committee were appointed for a limited time.

A Committee appointed to consider and report on any special subject will continue in office after the date on which the guardians would, but for the Local Government Act, 1894, have gone out of office, if the business for which the Committee were appointed is not completed by that date.

A Sanitary Committee appointed under Section 201 of the Public Health Act, 1875, can only continue until the end of the ordinary year of office of the guardians, and the Committee must accordingly be re-appointed after that time in the present year, if it is desired that they should still exist.

I am, &c.,
(signed) *Hugh Owen*,
Secretary.

The Clerk to the Guardians.

CIRCULAR to Town Councils of County Boroughs.

Local Government Board, Whitehall, S.W.,
30 April 1894.

Sir,

I AM directed by the Local Government Board to draw the attention of the Town Council to certain provisions of the Local Government Act, 1894, under which powers and duties will devolve on the Council for the purpose of bringing the Act into operation within the borough.

Order No. 31,100. 6 copies.

These provisions have reference to the alteration of areas and boundaries, and the election of guardians. Important powers in relation to these matters are conferred by the Act on county councils, and under section 75 (2) the expression "county council," when used in the Act, includes, unless the context otherwise requires, the council of a county borough.

Under section 83 it is the duty of the town council of every county borough to exercise all such of their powers as may be requisite for bringing the Act into full operation within the borough as soon as may be after its passing.

Section 84 provides that the first elections of guardians under the Act shall be held on the 8th November next, or such later date or dates in the present year as the Board may fix, and the persons elected are to come into office on the second Thursday next after their election, or such other day not more than seven days earlier or later as may be fixed by or in pursuance of rules made by the Board under the Act in relation to their election. It is

important that alterations which may affect the preparation of the lists of voters should be made sufficiently early to enable the lists to be properly prepared, and it is consequently provided by sub-section (3) of section 84 that every division into wards or alteration of the boundaries of any parish or union or district which is to affect the first election shall, if parishes or parts for which the registers of parochial electors will be made are affected, be made, so far as practicable, before the 1st of July next.

By "parochial electors" are meant, with reference to a parish in a county borough, the persons who would be the parochial electors of the parish if it were a rural parish, namely, the persons registered in such portion either of the local government register of electors or of the Parliamentary register of electors as relates to the parish. (Sections 2 (1) and 75.)

Many of the provisions of the Act referred to in this circular are to take effect from the "appointed day." Subject as mentioned in the Act, this day, for the purpose of elections, is defined as the day or respective days fixed for the first elections under the Act, or such prior day as may be necessary for the purpose of giving notices or doing other acts preliminary to such elections, and, for the purpose of the powers, duties, and liabilities of councils or other bodies elected under the Act, or other matters not specifically mentioned, it will be the day on which the members first elected come into office. (Section 84.)

I.—Areas and Boundaries.

The provisions which should first receive the attention of the Town Council are those contained in Part III. of the Act, which relate to areas and boundaries.

Sub-section (1) of section 36 provides (amongst other things) as follows:—

For the purpose of carrying this Act into effect in the case of—

(*a.*) every parish * * * which at the passing of this Act is situate partly within and partly without an administrative county; and

(*b.*) every parish which at the passing of this Act is situate partly within and partly without a sanitary district;

every county council shall forthwith take into consideration every such case within their county; and whether any proposal has or has not been made as mentioned in section 57 of the Local Government Act, 1888, shall, as soon as practicable, in accordance with that section, cause inquiries to be made and notices given, and make such orders, if any, as they deem most suitable for carrying into effect the present Act in accordance with the following provisions, namely:—

(i.) The whole of each parish shall be within the same administrative county; and

(ii.) The whole of each parish shall, unless the county council for special reasons otherwise direct, be within the same county district.

The expression "county district" does not include a county borough; but with that exception, includes every urban and rural district, whether a borough or not, *i.e.*, every urban and rural sanitary district within the meaning of the Public Health Act, 1875, other than a county borough. (Section 21.)

By sub-section (11) of section 36 it is provided that, where at the passing of the Act a parish is situate in more than one county, a joint committee of the councils of the several counties comprising the parish shall act under the section. The expression "county" includes a county borough. (Section 75.) The expression "administrative county" only includes a county borough where this is expressly stated (section 100 of the Local Government Act, 1888, and section 75 of the Local Government Act, 1894); but a parish partly within and partly without a county borough would, the Board believe, be in every case a parish partly within and partly without an administrative county, as defined by the Act of 1888. It would in any case be a parish partly within and partly without a sanitary district. Consequently it will be necessary

necessary that joint committees of the councils of the county and county borough should be appointed to act under section 36, with respect to every parish which is now partly within and partly without a county borough.

The appointment by the council of each county or county borough of representatives on any joint committee for the purposes of section 36 is to be made within two months after request from any other of the councils interested. If any of the councils fail to appoint members of the committee within that period, the members actually appointed are to act. Any question relating to the constitution or procedure of the joint committee as to which the councils concerned are unable to agree is to be determined by the Board.

If a parish is partly within a county borough and partly within a rural sanitary district, and no action is taken under section 36 prior to the appointed day, the parish will as from that date be divided by the Act, the part within the rural district and the part without being constituted separate parishes by sub-section (3) of section 1.

Sub-section (2) of section 36 provides that where a parish is at the passing of the Act situate in more than one urban district, the parts of the parish in each such district shall, as from the appointed day, unless the county council for special reasons otherwise direct, and subject to any alteration of area made by or in pursuance of this or any other Act, be separate parishes in like manner as if they had been constituted separate parishes under the Divided Parishes and Poor Law Amendment Act, 1876, and the Acts amending the same.

As regards the manner in which these cases might be dealt with by the joint committee, it is to be borne in mind that section 36 expressly directs that the orders shall be so made that the whole of each parish shall be within the same administrative county. An order could not therefore be made directing that a parish, now partly within a county borough and partly within an administrative county, should so remain. The parts of the parish might be added to other parishes by orders under the section, instead of being allowed to become separate parishes in pursuance of the Act.

In any case, such as those mentioned above, the boundary of any borough in which the parish is partly situated could, on the necessary application, be altered by an order of the Board under section 54 of the Local Government Act, 1888.

Where a parish is divided by the Act into two or more new parishes, sub-section (9) of section 36 directs that these parishes shall, until it is otherwise provided, be included in the same poor law union in which the original parish was included, and sub-section (2) of section 79 directs that, subject to any order made by the county council, there shall be one guardian, and in the case of a new parish in a rural district, one district councillor for each of the new parishes. Many of the parishes which will be divided by the Act are at present entitled to more than two guardians, and in such cases, if a county borough is concerned, it is desirable that a joint committee of the county and town councils should be appointed to settle the future representation of the new parishes.

The town councils of county boroughs will have power to give names to any new parishes formed by the Act within such boroughs, although no order for any alteration of area has been made. (Section 55 (2).)

It is provided by sub-section (11) of section 79 that the overseers of any parish divided by the Act shall, until the first appointment of overseers next after the appointed day, continue in office as if they were overseers of each part of the parish, which by reason of such division becomes a separate parish.

It is to be observed that when parishes are divided, and new parishes are constituted by the Act, whether under section 1 (3) or section 36 (2), they are to be separate parishes in like manner as if they had been constituted separate parishes under the Divided Parishes and Poor Law Amendment Act, 1876, and the Acts amending the same. The formation of parishes under the Acts referred to has no effect as regards the constitution of school districts, without the sanction of the Education Department.

Where the alteration of the boundary of any parish, or the division thereof, or the union thereof, or of part thereof with another parish, seems expedient for any of the purposes of the Act, provision for such alteration, division, or union,

union, may be made by an order of the county council or of a joint committee of county councils, under section 57 of the Act of 1888. (Section 36 (8) and (11).)

The provisions of section 59 of the Local Government Act, 1888, will apply to any order for the purposes of the present Act that may be made under section 57 of that Act, and section 69 of the new Act provides that in any case where an alteration of any area is made by the Act, an order may be made, in the case of an area situate in more than one county, by a joint committee of county councils, for any of the matters mentioned in section 59 of the Act of 1888. Under these powers adjustments may be made of any property, debts, and liabilities affected by the alteration, and directions may be given for effecting any subsidiary arrangements rendered necessary by the alteration.

Sub-section (12) of section 36 requires that every report made by the Boundary Commissioners under the Local Government Boundaries Act, 1887, shall be laid before the council of any borough affected by that report, and before any joint committee of the councils of counties or county boroughs. The sub-section further provides that it shall be the duty of the councils and joint committees to take these reports into consideration before framing any order under the powers conferred on them by the Act. The town council or joint committee will not be bound to give effect to the recommendations of the Commissioners, but the reports in question will be found to be of assistance in arriving at a decision in regard to any matter dealt with therein.

II.—Guardians.

The Act makes important alterations in the qualification, mode of election, and retirement of guardians; and the Board desire to refer the town council generally to the provisions of section 20 on these matters. It may be observed that guardians will only be elected in urban parishes. In a rural parish one or more rural district councillors will be elected, who will represent the parish on the board of guardians. (Section 24 (3).)

Under sub-section (1) of section 60 of the Act, the town council of a county borough will, where a union or parish under a separate board of guardians is co-extensive with the borough, or wholly included in it, have power to fix or alter the number of guardians to be elected for any parish comprised in the union or for the separate parish, as the case may be; and it is provided that for those purposes the council may exercise powers of adding parishes to each other and dividing parishes into wards, similar to those which by the Acts relating to the relief of the poor are, for the purpose of the election of guardians, vested in the Board.

The power to add parishes to each other for the purpose of the election of guardians is conferred on the Board by section 6 of the Poor Law Amendment Act, 1868 (31 & 32 Vict. c. 122). That section provides that the Board may add any parish in a union, the population of which does not exceed 300, and the aggregate rateable value of which does not exceed the average rateable value of the parishes in the same union, to some adjoining parish in the union for the purpose of the election of guardians. The town council will thus be able to add any such parish within the borough to any other parish therein for the purpose of the election of guardians.

The power conferred on the Board by the Poor Law Acts to divide parishes into wards for the election of guardians is contained in section 12 of the Divided Parishes and Poor Law Amendment Act, 1876 (39 & 40 Vict. c. 61), which enables the Board to divide any parish into wards for the election of guardians, and to determine the number of guardians to be elected for each ward, due regard being had to the value of the rateable property therein.

Under sections 20 and 60 of the new Act, the town council will have to consider what provision should be made as to the retirement of guardians for any union or any parish under a separate board of guardians which is wholly comprised in the borough. The first of these sections provides generally that the term of office of a guardian shall be three years, and that one-third, as nearly as may be, of every board of guardians shall go out of office on the 15th April in each year. Where, however, the council, on the application of a board of guardians, consider that it would be expedient to provide for the simultaneous

simultaneous retirement of the whole board, they may, if the union or parish is wholly comprised in the borough, direct that the members shall retire together on the 15th April in every third year. Where a union or a parish under a separate board of guardians is only partly within the county borough, an order for this purpose may be made by a joint committee of the councils of the county and county borough concerned. There are some cases in which at the present time the whole of the guardians retire at the end of every third year in pursuance of an order of the Board, and in any such case, where a county borough is concerned, the guardians are to continue so to retire, unless the town council, or a joint committee of the councils of the county and county borough, on the application of the board of guardians, or of any district council of a district wholly or partially within the union, otherwise direct.

Section 24 makes the provisions of the Act with respect to the term of office and retirement of guardians applicable to the district councillors of a rural district.

Section 60 provides that the council of each county as defined by the Act may, for the purpose of regulating the retirement of guardians or rural district councillors in cases where they retire by thirds, direct in which year or years of of each triennial period the guardians or district councillors for each parish ward, or other area in the union or rural district shall retire.

When the union is situate in more than one county, the power of fixing or altering the number of guardians or rural district councillors, and in connection therewith of dividing a parish into wards, and also the power of regulating the retirement of guardians and of district councillors, is to be exercised by a joint committee of the councils of the counties concerned; but if any of those councils do not, within two months after request from any other of them, appoint members of such joint committee, the members of the committee actually appointed will have power to act as the joint committee. If any order made by a joint committee under this provision is within six weeks after the making thereof objected to by any of the county or county borough councils concerned, or by any committee of any of those councils authorised in that behalf, the order will be inoperative until confirmed by the Board. (Section 60 (3).)

Where the guardians and rural district councillors are to retire by thirds, in accordance with the rule prescribed by section 20, it will be necessary, as the full number of guardians or district councillors will be elected at the first election, to provide for retirements in the years 1896 and 1897. There will be no retirements under the Act before 1896. (Section 79.) The question as to the guardians and rural district councillors who will have to retire in the two years mentioned is, under sub-section (4) of section 79, to be determined by the council of the county or county borough with reference to the parishes, wards, or other areas for which the guardians or councillors are elected. It will be necessary in the case of a union or a parish under a separate board of guardians partly within and partly without a county borough, that a joint committee of the county and county borough councils should, as above mentioned, be appointed for this purpose.

III.—Miscellaneous.

Sub-section (7) of section 48 of the Act requires the council of every county borough to fix a scale for the expenses of elections of guardians for the borough. If, at the beginning of one month before the first election, the council have not framed any such scale, the Board will have power to frame a scale for the purposes of that election. The Board will be glad to receive a copy of the scale framed by the council under this section as soon as it has been approved by the council. In any case where a union or parish under a separate board of guardians is partly but not wholly comprised in a county borough, it appears to the Board that it will be necessary that a joint committee of the county and county borough councils concerned should be appointed under section 81 of the Local Government Act, 1888, for the purpose of framing a scale of expenses for the election of guardians, and the Board would wish to be furnished with a copy of the scale framed by any such committee.

Under sections 48 and 80 the town council will have very extensive powers for the removal of any difficulties that may arise in connection with the election of guardians, and generally in bringing the Act into operation. Sub-section (5) of section 48 provides that if any difficulty arises as respects the election of any individual guardian, and there is no provision for holding another election, the council may order a new election to be held and give such directions as may be necessary for the purpose of holding the election.

Under section 80, if any difficulty arises with respect to the holding of the first election of guardians, or to the first meeting of a board of guardians, or if, from no election being held, or an election being defective or otherwise, the first board of guardians has not been properly constituted, the council may, by order, make any appointment, or do any thing which appears to them necessary or expedient for the proper holding of any such first meeting or election and properly constituting the board of guardians, and may, if it appears to them necessary, direct the holding of an election, and fix the necessary dates for the purpose. Any such order may modify the provisions of the Act, and the enactments applied by or rules framed under it, so far as may appear to the council necessary or expedient for carrying the order into effect. Where the union or parish under a separate board of guardians is partly in a county borough and partly in an administrative county, and any difficulty such as is mentioned in section 80 arises, a joint committee should be appointed to deal with the matter by the councils of the county and county borough under section 81 of the Act of 1888.

It is now necessary to refer to the provisions which will govern the procedure of the town council in regard to the issue of orders for the purposes mentioned above.

Sub-section (10) of section 36 in effect directs that, subject to the provisions of the Act, any order made by the town council of a county borough, or by a joint committee, in pursuance of Part III. of the Act (as to areas and boundaries) shall be deemed to be an order under section 57 of the Local Government Act, 1888. Every such order will consequently have to be made in accordance with the provisions of that section, and of the regulations issued by the Board thereunder, and, with the exceptions mentioned in section 40 of the new Act, will require confirmation by the Board in the manner prescribed by section 57 of the Act of 1888.

An important amendment of the section last mentioned is made by section 41 of the new Act, which provides that the time for petitioning the Board against an order under the section shall be six weeks, instead of three months, after the first notice of the provisions of the order.

The Act also provides that any board of guardians affected by an order under Part III. of the Act, are to have the same right of petitioning against the order as is given by section 57 of the Act of 1888 to other authorities (section 36 (10)); and that where any of the areas referred to in section 57 of the Act of 1888 is situate in two or more counties, as defined by the Act of 1894, or the alteration of any such area would alter the boundaries of a poor law union situate in two or more counties, a joint committee appointed by the councils of those counties is, subject to the terms of delegation, to be deemed to have and to have always had power to make orders under the section with respect to that area (Section 36 (11).)

In connection with the orders of the town council under this Act, it may be pointed out that by section 42 it is provided that in any case where an order under section 57 of the Act of 1888 (including any order made or deemed to have been made thereunder for the purposes of this Act) has been confirmed by the Board, such order is at the expiration of six months from the date of confirmation to be presumed to have been duly made, and to be within the powers of that section, and no objection to the legality thereof can be entertained.

A copy of every order made by the council of a county borough or joint committee in pursuance of the Act is to be sent to the Board, and, if it alters any local area or name, a copy must be sent also to the Board of Agriculture. (Section 71.)

Sub-section

Sub-section (2) of section 80 requires that the Board shall issue regulations for expediting and simplifying the procedure under section 57 of the Act of 1888 in all cases in the year 1894, for the purpose of bringing the Act into immediate operation.

The Board have issued an order for this purpose, which, as regards the cases referred to, will take the place of any regulations previously made by them as to the procedure under section 57 of the Act of 1888, which are in force in any county borough, except where notice of a local inquiry has been given before the date of the order.

It will be observed that under Article VIII. the expression "council," as used in the order, will include a committee of the town council of any county borough to whom the council have delegated their powers under the Act of 1894, and also a joint committee appointed by any such councils, or by any such council or councils and the county council or councils of any administrative county or counties for the purpose of dealing with any case or cases in which such councils are jointly interested.

The Board enclose six copies of the order, and they have caused it to be placed on sale. If, therefore, further copies are required, they can be purchased from Messrs. Eyre and Spottiswoode, East Harding-street, London, E.C., either directly or through any bookseller. Copies of this circular can also be purchased in the same way.

Section 44 contains provisions as to the register of the parochial electors which is to be formed as well for urban as for rural parishes, for the purposes of elections under the Act. The Board do not consider it necessary to refer to these provisions in detail; but the attention of the town council should be directed to the proviso to sub-section (3) of section 84, under which, if the council or a joint committee have under consideration any division into wards or alteration of the boundaries of any parish, or union, which is to affect the first election, they may direct that the lists of voters shall be framed in parts corresponding with such division or alteration so that the parts may serve either for the unaltered parish or union, or for the same when divided or altered.

In making any such division or alteration at any time in the month of July or August next, the council or a joint committee may direct such adjustment of the registers of parochial electors as the division or alteration may render necessary for enabling every parochial elector to vote at the first election in the ward or union in which his qualification is situate, and it will be the duty of the town clerk to give effect to any such direction. (Section 84.)

Some inquiries have been addressed to the Board with respect to the powers of joint committees appointed in pursuance of the Act, and the Board may state that they are advised that the provisions of section 81 of the Local Government Act, 1888, apply to joint committees formed for any of the purposes mentioned in sub-section (11) of section 36 of the present Act, and also to joint committees formed for the purposes of section 60 of that Act. The Board consider, therefore, that subject to an appeal to them in cases coming under section 36 (11) if the councils do not agree, the powers of the joint committee could be restricted by the councils appointing them by the terms of delegation, and, if those councils thought fit, those terms might be such as to make the proceedings of the committee subject to confirmation by the councils. The Board may add, however, that in their opinion it is very desirable that, as a general rule, the terms of delegation should be such as not to render any confirmation necessary. The same remarks apply to cases where, for any purpose connected with the Act of 1894 in respect of which two or more county councils (as defined by that Act) are jointly interested, a joint committee of those councils is appointed, although the Act contains no express provision for such an appointment.

I am &c.

(Enclosure in No. 8).

Order of the 27th April 1894.

(No. 31,100.)

LOCAL GOVERNMENT ACT, 1888, and LOCAL GOVERNMENT ACT, 1894.

COUNTY BOROUGHS—Regulations as to Inquiries and Notices during 1894.

To the Town Councils of the several County Boroughs in England and Wales, to the County Councils for the several Administrative Counties in England and Wales, and to all others whom it may conern.

WHEREAS by sub-sections (1), (2), and (3) of section 57 of the Local Government Act, 1888, it is enacted as follows:

"(1.) Whenever a county council is satisfied that a *primâ facie* case is "made out as respects any county district not a borough, or as respects "any parish, for a proposal for all or any of the following things; that is to say,—

"(*a*) The alteration or definition of the boundary thereof;

"(*b*) The division thereof or the union thereof with any other such district or districts, parish or parishes, or the transfer of part of a parish to another parish;

"(*c*) the conversion of any such district or part thereof, if it is a "rural district, into an urban district, and if it is an urban district, "into a rural district, or the transfer of the whole or any part of any "such district from one district to another, and the formation of new "urban or rural districts;

"(*d*) The division of an urban district into wards; and

"(*e*) The alteration of the number of wards, or of the boundaries "of any ward, or of the number of members of any district council, "or of the apportionment of such members among the wards,

"the county council may cause such inquiry to be made in the locality, "and such notice to be given, both in the locality, and to the Local "Government Board, Education Department, or other Government depart- "ment as may be prescribed, and such other inquiry and notices (if any) "as they think fit, and if satisfied that such proposal is desirable, may "make an order for the same accordingly.

"(2.) Notice of the provisions of the order shall be given, and copies "thereof, shall be supplied in the prescribed manner, and otherwise as the "county council think fit, and if it relates to the division of a district into "wards, or the alteration of the number of wards or of the boundaries of a "ward, or of the number of the members of a district council, or of the "apportionment of the members among the wards, shall come into operation "upon being finally approved by the county council.

"(3.) In any other case the order shall be submitted to the Local "Government Board; and if within three months after such notice of the "provisions of the order as the Local Government Board determine to be "the first notice, the council of any district affected by the order, or any "number of county electors registered in that district or in any ward of "that district, not being less than one-sixth of the total number of electors "in that district or ward, or if the order relates only to a parish, any "number of county electors registered in that parish, not being less than one- "sixth of the total number of electors in that parish, petition the Local "Government Board to disallow the order, the Local Government Board "shall cause to be made a local inquiry, and determine whether the order "is to be confirmed or not."

And

And whereas in pursuance of section 34 of the said Act, the Mayor, Aldermen, and Burgesses of each county borough, acting by the council, have and are subject to such of the powers, duties, and liabilities of a county council under the said section 57 of the said Act, as relates to parishes;

And whereas by sub-section (4) of section 87 of the said Act it is enacted that—

"Where any matter is authorised or required by this Act to be prescribed, and no other provision is made, declaring how the same is to be prescribed, the same shall be prescribed from time to time by the Local Government Board."

And whereas in regard to the matters required by the said section 57 to be prescribed, no provision other than that contained in the said section 87 is made, declaring how such matters are to be prescribed;

And whereas by Part III. of the Local Government Act, 1894, power is given to county councils to make various orders in relation to areas and boundaries, and other matters as therein mentioned;

And whereas by sub-sections (10) and (11) of section 36 of the said Act, which is included in Part III. thereof, it is enacted that—

"(10.) Subject to the provisions of this Act, any order made by a county council in pursuance of this Part of this Act shall be deemed to be an order under section 57 of the Local Government Act, 1888, and any board of guardians affected by an order shall have the same right of petitioning against that order as is given by that section to any other authority.

"(11.) Where any of the areas referred to in section 57 of the Local Government Act, 1888, is situate in two or more counties, or the alteration of any such area would alter the boundaries of a poor law union situate in two or more counties, a joint committee appointed by the councils of those counties shall, subject to the terms of delegation, be deemed to have and to have always had power to make orders under that section with respect to that area; and where at the passing of this Act, a rural sanitary district or parish is situate in more than one county, a joint committee of the councils of those counties shall act under this section."

And whereas by section 41 of the said Act, it is enacted that—

"The time for petitioning against an order under section 57 of the Local Government Act, 1888, shall be six weeks instead of three months after the notice referred to in sub-section three of that section."

And whereas by sub-section (2) of section 80 of the said Act it is enacted that—

"The Local Government Board shall make regulations for expediting and simplifying the procedure under section 57 of the Local Government Act, 1888, in all cases in the year one thousand eight hundred and ninety-four, for the purpose of bringing this Act into immediate operation, and such regulations may dispense with the final approval of an order by the county council in cases where the prescribed notice of the proposed order has been given before it is made by the county council."

And whereas by section 75 of the said Act it is enacted that, in that Act, unless the context otherwise requires, the expression "county" includes a county borough, and the expression "county council" includes the council of a county borough, and the expression "prescribed" means prescribed by order of the Local Government Board;

And whereas by section 83 of the said Act, it is enacted that a county council may delegate their powers under the Act to a Committee:

Now Therefore, We, the Local Government Board, in pursuance of the powers given to us in that behalf, by this our order make the regulations following

following as regards any county borough and the council of any county borough, for expediting and simplifying the procedure under section 57 of the Local Government Act, 1888, in all cases in the year 1894, for the purpose of bringing the said Local Government Act, 1894, into immediate operation, and do prescribe and determine as follows as regards any county borough, and the council of any county borough; that is to say,—

Article I.—This order shall, unless We shall otherwise direct, regulate the procedure of the council of every county borough under section 57 of the Local Government Act, 1888, in all cases in the year 1894, for the purpose of bringing the Local Government Act, 1894, into immediate operation, except cases in which notice of a local inquiry has been given before the date of this order; and any order previously issued by us regulating the procedure under the said section and in force in any county borough shall not apply in any case to which this Order applies.

Article II.—(1.) A local inquiry, at which all persons interested may attend and be heard, shall, prior to any order being made by the council of a county borough under section 57 of the Local Government Act, 1888, be held in regard to the proposal, either by a committee of the council, or by some person appointed by the Council to hold such inquiry, as the council may direct.

(2.) The said inquiry shall, unless the council otherwise determine, be held at some convenient place in the parish, or in one of the parishes proposed to be dealt with, or at such other place in the borough or neighbourhood as may the opinion of the committee or person by whom the inquiry is to be held be most convenient for the purpose.

(3.) At least 10 days before the day when the inquiry is to be held, public notice of the purport of the proposal, and of the day, time, and place fixed for the inquiry in regard to it, shall be given by the council by advertisement in some local newspaper circulating in the locality to which the proposal relates.

Article III.—At least 10 days before the day when any such local inquiry is to be held, a printed notice of the purport of the proposal, and of the day, time, and place for the inquiry, shall also be published in the manner hereinafter prescribed, and shall be sent to the several Government departments, and local or other authorities hereinafter specified; that is to say,—

(1.) A copy of the said notice shall be posted as a bill or placard in such places in the parish or parishes interested in the proposal as are ordinarily made use of for posting public or parochial notices.

(2.) A copy of the notice shall be sent by the council to the overseers of the poor of such parish; to the guardians of the poor of the union in which such parish is comprised; to the school board (if any) in whose district such parish or any part thereof is comprised; to the highway authority for any part of the parish, if any person or body of persons other than the council are such highway authority; to any burial board, other than the council, for such parish or for any part thereof; and to any urban sanitary authority, other than the council, in whose district any part of such parish is comprised.

(3.) A copy of the notice shall be sent by the council to any local authority which, in the opinion of the council, is specially interested in the proposal.

(4.) A copy of every such notice shall be sent by the council to the Local Government Board, the Board of Agriculture, the Public Works Loan Commissioners, the Director General of the Ordnance Survey at Southampton, the Registrar General, and the Education Department.

Article IV.—(1.) Public notice of the provisions of any order made by a council under section 57 of the Local Government Act, 1888, shall be given by the

the council by advertisement in some local newspaper circulating in each parish affected by the order; and such advertisement shall be published within 10 days after the making of the order.

(2.) The said advertisement shall contain either a copy of the order, or a statement of the effect of the order, and shall also contain a statement of the time and place or places during and at which copies of the order may be inspected by any owner or ratepayer in any area affected by the order during a period of 14 days from the date of the publication of such advertisement, and the order shall be open for such inspection during such period.

Article V.—A copy of any order made by a council as aforesaid shall, at any time before the expiration of six weeks from the publication of the advertisement in pursuance of Article IV. (1) hereof, be supplied by the clerk of the council to any owner or ratepayer in any area affected by the order, upon payment by such owner or ratepayer of a sum not exceeding threepence for each hundred words of manuscript if the copy of the order be in writing, or upon payment of a sum not exceeding threepence for a printed copy of the order.

Article VI.—On or before the date of the publication, in pursuance of Article IV. (1) hereof, of the advertisement of the provisions of any order made as aforesaid, three copies of the order shall be forwarded to the Local Government Board and to each of the other Government Departments to whom a copy of the notice of the inquiry relative to the proposed order was, by Article III. (4) hereof, required to be sent; a copy of the order shall also be sent to each of the local or other authorities to whom a copy of such notice was so required to be sent, and a copy shall also be posted in like manner as the notice of the inquiry was, in pursuance of the same article, required to be posted.

Article VII.—The advertisement, in pursuance of Article IV. (1) hereof of the provisions of any order made by a council under section 57 of the Local Government Act, 1888, shall be deemed to be the "first notice" for the purposes of sub-section (3) of that section, as amended by section 40 of the Local Government Act, 1894.

Article VIII.—The expression "council" in this order shall mean the town council of any county borough, and shall include a committee to whom the council have delegated their powers under the Local Government Act, 1894, and also a joint committee appointed by any such councils, or by any such council or councils, and the county council or councils of any administrative county or counties, for the purpose of dealing with any case or cases in which such councils are jointly interested, and, where any such joint committee is appointed, references in this order to the county borough shall be deemed to refer to each of the county boroughs or counties interested, and references to the clerk of the council, to any person acting as clerk to the joint committee or appointed by such committee to discharge the duties of the clerk of a council under this order.

Given under the Seal of Office of the Local Government Board, this Twenty-seventh day of April, in the year One thousand eight hundred and ninety-four.

CIRCULAR to County Councils.

Local Government Board, Whitehall, S.W.,
30th April 1894.

Sir,

I AM directed by the Local Government Board to advert to their circular letter of the 24th ultimo, with reference to certain provisions of the Local Government Act, 1894, under which powers and duties will devolve on the county council for the purpose of bringing the Act into operation within the county.

Order No. 31,100. 6 copies.

The Board have now issued an order prescribing regulations for expediting and simplifying the procedure under section 57 of the Local Government Act, 1888, in cases occurring during the present year in which the town councils of county boroughs, or joint committees of such councils and the councils of administrative counties, may have to take action for the purpose of bringing the Act into immediate operation.

Six copies of the order are enclosed, and if additional copies are required, they can be purchased from Messrs. Eyre and Spottiswoode, East Harding-street, London, E.C., either directly or through any bookseller.

Circular.

I am, at the same time, to forward to the county council for their information a copy of a circular letter which the Board have addressed to the town councils of county boroughs, on the subject of the provisions above referred to, which affect such councils, and I am to call attention to the remarks on page 5 as to the appointment in certain cases of joint committees under section 81 of the Act of 1888. The Board also desire me to draw attention to the last paragraph of the circular as to the powers of joint committees appointed in pursuance of the Act of this year.

I am, &c.
(signed) *Hugh Owen*,
Secretary.

The Clerk of the County Council.

LOCAL GOVERNMENT BOARD (CIRCULAR LETTERS).

COMPARATIVE STATEMENT OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1893, 56,714 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,544 chargeable to the County and Borough Rates; and on the 1st July 1893 there were 8,391 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the month of January 1894.

	In-door.	Out-door.	TOTAL.	Increase.	Decrease.
Last day in the First week of January -	210,598	522,265	732,863	—	—
Ditto - - Second week - - -	212,673	527,962	740,635	7,772	—
Ditto - - Third week - - -	211,350	530,730	742,080	1,445	—

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

It will be observed from the foregoing Table that the number of Paupers in receipt of relief in January 1894 was larger in each week than in nine out of the eighteen years from 1875. It was, however, notwithstanding the increase in population, smaller in each week than the number relieved in the corresponding month in any year from 1857 to 1875. The proportion which the Paupers bore to the population of the country in the last week of the month in 1894 was 24·9 to the 1,000, which was smaller than in any other year, except the three immediately preceding it. The proportion was smallest in 1892, when it fell to 24·2 to the 1,000. In each of the sixteen years from 1857 to 1872 it was more than 40 to the 1,000, and in one of those years it reached 53·9 to the 1,000. If the Paupers had borne the same proportion to estimated population in the last week of January 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,440,583 instead of 741,385.
Ditto - - 1874 - ditto - - 1,003,774 - ditto.
Ditto - - 1884 - ditto - - 810,934 - ditto.

The following Table gives similar information to that in Table I. with respect to the Pauperism of the Metropolis, apart from that of the rest of the country:—

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

The foregoing figures show that in only seven of the thirty-seven preceding years have the persons relieved in the Metropolis in each week of the month of January exceeded the number relieved in that month in the present year. Moreover, the proportion of Pauperism to population was larger in 1894 than in nine out of the seventeen years since 1876. It was highest in the years from 1867 to 1871, in which it ranged from 49 to 55 to the 1,000, as compared with 23·5 to the 1,000 in 1892, when it was lowest, and 25·0 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of January 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 154,268, instead of 107,557.
Ditto - - 1874 - - ditto - - 137,462 - ditto.
Ditto - - 1884 - - ditto - - 104,597 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of January 1893 and 1894.

These Statements show that, as compared with the corresponding week in 1893, there was an increase in Pauperism in every Division except the North Western and Northern Divisions, in each week of the month of January 1894. In the former Division there was a decrease in the last four weeks; in the latter Division in each of the five weeks of the month. The increase was largest in the Eastern and York Divisions. Taking the total number of Paupers in England and Wales, there was, in January 1894, as compared with 1893, an increase of 4·0 per cent. in the first week, 3·7 per cent. in the second week, 3·1 per cent. in the third week, 3·3 per cent. in the fourth week, and 3·8 per cent. in the fifth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the five weeks of January 1894 numbered 3,304, 3,173, 3,078, 2,983, and 2,959 respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

COMPARATIVE STATEMENT OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1893, 56,714 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,544 chargeable to the County and Borough Rates; and on the 1st July 1893 there were 8,391 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the months of January and February 1894.

The following Table shows the number of persons relieved on the corresponding days of February during the last thirty-eight years, together with the population of the country, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fourth week of the month in each year:—

It will be observed from the foregoing Table that in February 1894 the number of Paupers in receipt of relief was larger in each week than in eight out of the eighteen preceding years. It was, however, notwithstanding the increase in population, smaller in each week than the number relieved in the corresponding month in any year from 1857 to 1875. The proportion which the Paupers bore to the population of the country in the last week of the month in 1894 was 24·7 to

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

to the 1,000, which was smaller than in any of the other years comprised in the Table, except the three immediately preceding it. In each of the sixteen years from 1857 to 1872 it was more than 40 to the 1,000, and in one of those years it reached 53 to the 1,000. The proportion was smallest in 1891 and 1892, when it fell to 24 to the 1,000. If the Paupers had borne the same proportion to estimated population in the last week of February 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows :—

In the same proportion as in 1864 they would have numbered 1,453,976 instead of 734,596.

The foregoing figures show that in the Metropolis the number of Paupers relieved in February 1894 was larger than in every week of the same month in seventeen out of the nineteen preceding years,

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

years, and also than in five of the eighteen years from 1857 to 1874. The proportion of Pauperism to population was, however, smaller in 1894 than in thirty-one of the thirty-seven preceding years. It was highest in 1870, when it reached 57·1 to the 1,000, and in 1868 it was over 50 to the 1,000 as compared with 22·9 to the 1,000 in 1891, when it was lowest, and 24·3 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of February 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 159,968, instead of 104,783.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of February 1893 and 1894.

These Statements show that there was an increase in Pauperism in nine out of the eleven Divisions in each week of the month of February 1894, as compared with the corresponding week in 1893. The Divisions in which there was a decrease were the North Western and Northern Divisions. The increase was largest in the Eastern Division, where it ranged from 7·2 per cent. in the first to 6·0 per cent. in the last week. Taking the total number of Paupers in England and Wales, there was, in February 1894, as compared with 1893, an increase of 3·9 per cent. in the first week, 3·6 per cent. in the second week, 3·3 per cent. in the third week, and 2·8 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of February 1894 numbered 2,902, 2,738, 2,667, and 2,701 respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

QUARTERLY STATEMENT AS TO PAUPERISM,

Quarter ended Lady-Day 1894.

(*Paupers in Lunatic Asylums, Registered Hospitals, and Licensed Houses, and Vagrants, not included.*)

The Return now published completes the Monthly Comparative Statements of the Pauperism of England and Wales for the Quarter ended at Lady-day 1894.

On referring to the Tables in the Monthly Comparative Statements for the months of January, February, and March 1894, showing the number of Paupers in receipt of relief on the last day of each week of the corresponding months for the last thirty-eight years, it will be seen that in the majority of the years the maximum number of Paupers was reached during the month of February. In some years, however, it has been attained as early as January, and in others as late as March. In the present year the maximum was reached as early as in the third week of January.

The Tables above referred to also show the population of the country in each year, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the last week of the month to which the Return relates, during the last thirty-eight years. On reference to them it will be seen that the number of Paupers in every 1,000 of the population was 24·9 at the end of January, 24·7 at the end of February, and 24·0 at the end of March.

On comparing the proportion of Paupers to the population in the whole of England and Wales, it will be observed that the proportion was larger in each month of the quarter in the present year than in the three preceding years, but smaller than in any of the other thirty-four years.

In the Metropolis the proportion of Paupers to population was smaller in the first month of the quarter in the present year than in twenty-eight of the thirty-seven preceding years, in the second month it was smaller than in thirty-one of the years, and in the last month it was smaller than in thirty-four of the years.

The following Statement relates to the three Divisions of England in which the principal manufactures are carried on, namely, the North Midland, North-Western, and York Divisions. It gives the number of Paupers relieved in these Divisions on the last day of the last week of the quarters ended at Lady-day 1890, 1891, 1892, 1893, and 1894.

Number

Number of Paupers in North Midland, North-Western, and York Divisions at the end of the Lady-day Quarter	-	1890	184,107
Ditto - - - ditto - - -		1891	175,933
Ditto - - - ditto - - -		1892	177,531
Ditto - - - ditto - - -		1893	187,496
Ditto - - - ditto - - -		1894	188,176

It will be seen that there was a considerable increase in the total number of persons receiving relief in these Divisions as a whole at the end of the quarter in 1894, as compared with the four preceding years. Details as to the increase or decrease in these Divisions separately in the month of March 1894, as compared with the same month in the preceding year, are given on pages 10 to 13.

COMPARATIVE STATEMENT OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1893, 56,714 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,544 chargeable to the County and Borough Rates; and on the 1st July 1893 there were 8,391 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the months of January, February, and March 1894.

The following Table shows the number of persons relieved on the corresponding days of March during the last thirty-eight years, together with the population of the country, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fourth week of the month in each year:—

It will be observed from the foregoing Table that in March 1894 the number of Paupers in receipt of relief, notwithstanding the increase in population, was smaller than the number relieved in the corresponding month in twenty-nine of the thirty-seven preceding years, and in some of the weeks of two other of those years. It will also be seen that in the last week of March 1894, the proportion which the Paupers bore to the population of the country was smaller than it was in the corresponding week in any of the other years comprised in the Table, except the three immediately

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

immediately preceding it. In 1863, when the proportion was highest, it reached 52·2 to the 1,000, and in every year from 1857 to 1871 it was over 40 to the 1,000. It was lowest in 1892, when it was 23·4 to the 1,000 as compared with 24·0 to the 1,000 in the present year. If the Paupers had borne the same proportion to estimated population in the last week of March 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,415,162 instead of 713,819.

The following Table gives similar information with respect to the Pauperism of the Metropolis, apart from that of the rest of the country:—

The foregoing figures show that in the Metropolis the number of Paupers relieved in March 1894 was larger than in twenty of the other thirty-seven years. The proportion of Pauperism to population

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

population in the last week of March was, however, smaller in 1894 than in any of the other years except the three immediately preceding it. It was highest in 1870, when it reached 51·5 to the 1,000, and in six other years it was over 40 to the 1,000, as compared with 21·8 to the 1,000 in 1893, when it was lowest, and 23·2 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of March 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 149,452, instead of 99,885.

Ditto - - 1874 - - ditto - - 135,944 - ditto.

Ditto - - 1884 - - ditto - - 101,970 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of March 1893 and 1894.

These Statements show that there was an increase in Pauperism in nine out of the eleven Divisions in each week of the month of March 1894, as compared with the corresponding week in 1893. The Divisions in which there was a decrease were the North Western and Northern Divisions. The increase was largest in the Eastern Division, where it ranged from 5·2 per cent. in the first to 7·6 per cent. in the last week. Taking the total number of Paupers in England and Wales, there was, in March 1894, as compared with 1893, an increase of 2·7 per cent. in the first and second weeks, 2·5 per cent. in the third week, and 3·1 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of March 1894 numbered 2,653, 2,641, 2,629, and 2,636 respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

COMPARATIVE STATEMENT OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1893, 56,714 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,544 chargeable to the County and Borough Rates; and on the 1st January 1894 there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the months of January, February, March, and April 1894.

The following Table shows the number of persons relieved on the corresponding days of April during the last thirty-eight years, together with the population of the country, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fifth week of the month in each year:—

It will be observed from the foregoing Table that in April 1894 the number of Paupers in receipt of relief, was larger than the number relieved in each of the weeks of the corresponding month in the four preceding years, but that notwithstanding the increase in population it was smaller than in thirty out of the thirty-three years from 1857 to 1889. The proportion which the Paupers bore to the estimated population of the country was smaller than in any other year comprised

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

comprised in the Table except the three immediately preceding it, and in one of those three years it was the same. In 1863, when the proportion was highest, it reached 49·7 to the 1,000, in 1858 it was 45·8 to the 1,000, and in every year from 1857 to 1871 it exceeded 40 to the 1,000, as compared with 22·9 in 1893 when it was lowest, and 23·3 in the present year. If the Paupers had borne the same proportion to estimated population in the last week of April 1894 as they did in that week in April 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,332,952 instead of 691,309.

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

The foregoing figures show that in the Metropolis the number of Paupers relieved in April 1894 was larger than the number relieved in twenty-four out of the other thirty-seven years comprised in the Table. The proportion of Pauperism to population was, however, smaller in April 1894 than in the corresponding month of any of the other years except 1893, 1892, 1891, and 1890, in which latter year it was the same. The proportion was highest in 1870, when it reached 44·8 to the 1,000, as compared with 21·3 to the 1,000 in 1892, when it was lowest, and 22·3 to the 1,000 in 1894. If the Paupers had borne the same proportion to estimated population in the last week of April 1894 as they did in that week in April 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 139,509, instead of 96,200.

Ditto - - 1874 - - ditto - - 127,147 - ditto.

Ditto - - 1884 - - ditto - - 98,343 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of April 1893 and 1894.

These Statements show that in nine out of the eleven Divisions in the first three weeks of the month of April 1894, and in ten out of the eleven Divisions in the last two weeks, there was an increase of Pauperism, as compared with the corresponding week in 1893. The Divisions in which there was a decrease were the North Western and Northern Divisions. The increase was largest in the Metropolis and the Eastern Division. Taking the total number of Paupers in England and Wales, there was, in April 1894, as compared with 1893, an increase of 2·7 per cent. in the first week, 2·3 per cent. in the second week, 2·5 per cent. in the third week, 2·7 cent. in the fourth week, and 2·9 per cent. in the fifth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the five weeks of April 1894 numbered 2,562, 2,578, 2,678, 2,738, and 2,789 respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

COMPARATIVE STATEMENT OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1893, 56,714 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,544 chargeable to the County and Borough Rates; and on the 1st January 1894 there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the months of January, February, March, April, and May 1894.

The following Table shows the number of persons relieved on the corresponding days of May during the last thirty-eight years, together with the population of the country, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fourth week of the month each year:—

It will be observed from the foregoing Table that although the number of Paupers in receipt of relief in May 1894 was larger in each week than in the four preceding years, and in the years 1876, 1877, and 1878, it was, notwithstanding the increase in population, smaller than the number relieved in the corresponding month of thirty out of the thirty-seven preceding years. The proportion which the Paupers bore to the population of the country in the last week of May

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

May 1894 was smaller than in any other year comprised in the Table except the three immediately preceding it. In every year from 1857 to 1871 it was over 40 to the 1,000. In 1893, when it was smallest, it was 22·7 to the 1,000, and in 1894, 23·1 to the 1,000. If the Paupers had borne the same proportion to estimated population in May 1894 as they did in that month in 1864, 1874, and 1884 respectively, the numbers would have been as follows :—

In the same proportion as in 1864 they would have numbered 1,280,725 instead of 687,727.

The following Table gives similar information to that in Table I. with respect to the Pauperism of the Metropolis, apart from that of the rest of the country :—

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given

The foregoing figures show that in the Metropolis the number of Persons relieved in May 1894 was larger in each week of the month than in the nineteen preceding years, and in the eight years from 1858 to 1865. The proportion of Pauperism to population was, however, smaller in May 1894 than in the corresponding month of twenty-nine out of the other thirty-seven years comprised in the Table, and the same as in two of those years. It was highest in 1868 and 1870, when it reached 42·4 and 42·6 to the 1,000, respectively, as compared with 20·7 to the 1,000 in 1892, and 22·2 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in May 1894 as they did in that month in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 134,405, instead of 95,403.

Ditto - - 1874 - - ditto - - 122,654 - ditto.

Ditto - - 1884 - - ditto - - 95,701 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of May 1893 and 1894.

These Statements show that in ten out of the eleven Divisions there was an increase of Pauperism in each week of the month of April 1894, as compared with the corresponding week in 1893. The decrease was in the Northern Division. The increase was largest in the Metropolis and the York Division. Taking the total number of Paupers in England and Wales, there was, in May 1894, as compared with 1893, an increase of 3·0 per cent. in the first week, 2·9 per cent. in the second week, 3·2 per cent. in the third week, and 3·3 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of May 1894 numbered 2,811, 2,834, 2,785, and 2,816 respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

QUARTERLY STATEMENT AS TO PAUPERISM,

Quarter ended Midsummer 1894.

(Paupers in Lunatic Asylums, Registered Hospitals, and Licensed Houses, and Vagrants, not included.)

The Return now published completes the Monthly Comparative Statements of the Pauperism of England and Wales for the Quarter ended at Midsummer 1894.

On referring to the Tables in the Monthly Comparative Statements for the months of April, May, and June 1894, showing the number of Paupers in receipt of relief on the last day of each week of the corresponding months for the last thirty-eight years, it will be seen that in almost every year a continuous decrease has taken place in the number of paupers week by week throughout the whole of the quarter. There are only a few exceptions to this rule. During the quarter to which this Return relates, there was a decrease each week except the third week in May and the first week in June, when there was a small increase.

The Tables above referred to also show the population of the country in each year, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the last week of the month to which the Return relates, during the last thirty-eight years. On reference to them it will be seen that the number of Paupers in every 1,000 of the population was 23·3 at the end of April last, 23·1 at the end of May, and 22·9 at the end of June.

On comparing the proportion of Paupers to the population in the whole of England and Wales, it will be observed that in April the proportion was larger in the present year than in two out of the three preceding years, and that in May and June it was larger than in each of those years, but smaller than in any of the other thirty-four years.

In the Metropolis the proportion of Paupers to population was smaller in the first month of the quarter in the present year than in thirty-three of the thirty-seven preceding years, in the second month it was smaller than in twenty-nine of the years, and in the last month it was smaller than in thirty of the years.

The following Statement relates to the three Divisions of England in which the principal manufactures are carried on, namely, the North Midland, North-Western, and York Divisions. It gives the number of Paupers relieved in these Divisions on the last day of the last week of the quarters ended at Midsummer 1890, 1891, 1892, 1893, and 1894.

Number

Number of Paupers in North Midland, North-Western, and York Divisions at the end of the Midsummer Quarter	-	-	-	-	-	-	-	1890	174,700

Ditto	-	-	-	ditto	-	-	-	1894	182,820

It will be seen that there was a considerable increase in the total number of persons receiving relief in these Divisions as a whole at the end of the quarter in 1894, as compared with the four preceding years. Details as to the increase in these Divisions separately in the month of June 1894, as compared with the same month in the preceding year, are given on pages 10 to 13.

COMPARATIVE STATEMENT OF PAUPERISM.

The Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1894, 58,777 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,530 chargeable to the County and Borough Rates; and on the same day there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the first six months of 1894.

The following Table shows the number of persons relieved on the corresponding days of June during the last thirty-eight years, together with the population of the country, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fourth week of the month in each year:—

It will be observed from the foregoing Table that although the number of Paupers in receipt of relief in June 1894 was larger in each week than in 1876 to 1878 and 1890 to 1893, it was, notwithstanding the increase in population, smaller than the number relieved in the corresponding month of thirty out of the thirty-seven preceding years. The proportion which the Paupers bore to the population of the country in the last week of June 1894 was 22·9 to the

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

the 1,000, which was a smaller prooprtion than in any other year comprised in the Table, except the three immediately preceding it. In 13 out of the 15 years from 1857 to 1871 it was over 40 to the 1,000. In 1892, when it was smallest, it was 22·4 to the 1,000. If the Paupers had borne the same proportion to estimated population in the last week of June 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,260,869 instead of 682,176.

The following Table gives similar information to that in Table I. with respect to the Pauperism of the Metropolis, apart from that of the rest of the country:—

* This is the estimated population in the middle of each year preceding the year for which the number of paupers is given.

The foregoing figures show that in the Metropolis the number of Persons relieved in June 1894 was larger in each week of the month than in twenty-eight of the other thirty-seven years comprised in the Table. The proportion of Pauperism to population was, however, smaller in June 1894 than in the corresponding month of thirty out of the other thirty-seven years comprised in the Table. It was highest in 1868, 1869, and 1870, when it reached 41·3, 40·2, and 40·7 to the 1,000, respectively, and lowest in 1892, when it fell to 20·3 to the 1,000, as compared with 21·8 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of June 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 131,224, instead of 93,697.
Ditto - - 1874 - - ditto - - 119,611 - ditto.
Ditto - - 1884 - - ditto - - 95,014 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of June 1893 and 1894.

These Statements show that in ten out of the eleven Divisions there was an increase of Pauperism in each week of the month of June 1894, as compared with the corresponding week in 1893. The decrease was in the Northern Division. The increase was largest in the Metropolis and the York Division. Taking the total number of Paupers in England and Wales, there was, in June 1894, as compared with 1893, an increase of 3·4 per cent. in the first week, 3·3 per cent. in the second week, 3·2 per cent. in the third week, and 2·6 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of June 1894 numbered 2,770, 2,750, 2,711, and 2,603 respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

COMPARATIVE STATEMENT OF PAUPERISM.

The Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1894, 58,777 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,530 chargeable to the County and Borough Rates; and on the same day there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the first seven months of 1894.

The following Table shows the number of persons relieved on the corresponding days of July during the last thirty-eight years, together with the population of the country, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fifth week of the month in each year:—

It will be observed from the foregoing Table that the number of Paupers in receipt of relief in July 1894 was, notwithstanding the increase in population, smaller than the number relieved in the

* This is the estimated population in the middle of each year for which the number of paupers is given.

the corresponding month in 29 out of the other 37 years comprised in the Table. The proportion which the Paupers bore to the population of the country in the last week of the month in 1894 was smaller than in any of the other years except the three preceding it. The proportion was smallest in 1892, when it fell to 21·7 to the 1,000, as compared with 22·6 to the 1,000 in 1894. In 10 out of the 14 years from 1857 to 1870 it was over 40 to the 1,000. If the Paupers had borne the same proportion to estimated population in the last week of July 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,231,520 instead of 679,816.
Ditto - - 1874 - ditto - - 917,585 - ditto.

* This is the estimated population in the middle of each year for which the number of paupers is given.

The foregoing figures show that in the Metropolis the number of Persons relieved in July 1894 was larger than in twenty-nine of the other thirty-seven years comprised in the Table. The proportion of Pauperism to population was, however, smaller in July 1894 than in the corresponding month of twenty-six out of the thirty-seven years, and it was the same as in three other of those years. It was highest in 1868, when it reached 40·6 to the 1,000, as compared with 20·0 to the 1,000 in 1891, when it was lowest, and 21·6 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of July 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 129,828, instead of 93,764.
Ditto - - 1874 - - ditto - - 116,678 - ditto.
Ditto - - 1884 - - ditto - - 93,890 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of July 1893 and 1894.

These Statements show that in nine out of the eleven Divisions there was an increase of Pauperism in each week of the month of July 1894, as compared with the corresponding week in 1893. In the second week there was a decrease in the South Eastern Division, but an increase in the other weeks, and in each week there was a decrease in the Northern Division. The increase was largest in the York Division. Taking the total number of Paupers in England and Wales, there was, in July 1894, as compared with 1893, an increase of 2·1 per cent. in the first and fourth weeks, 2·0 per cent. in the second week, and 2·2 per cent. in the third and fifth weeks.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the five weeks of July 1894 numbered 2,618, 2,651, 2,718, 2,847, and 2,955, respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

COMPARATIVE STATEMENT OF PAUPERISM.

The Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1894, 58,777 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,530 chargeable to the County and Borough Rates; and on the same day there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the first eight months of 1894.

It will be observed from the foregoing Table that the number of Paupers in receipt of relief in August 1894 was, notwithstanding the increase in population, smaller in each week than the number

* This is the estimated population in the middle of each year for which the number of paupers is given.

number relieved in the corresponding month in 25 out of the other 37 years comprised in the Table. The proportion which the Paupers bore to the population of the country in the last week of the month in 1894 was smaller than in any of the other years except the three immediately preceding it. The proportion was smallest in 1892, when it fell to 21·7 to the 1,000, as compared with 22·7 to the 1,000 in 1894. In nine out of the 14 years from 1857 to 1870 it was more than 40 to the 1,000. If the Paupers had borne the same proportion to estimated population in the last week of August 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,222,700 instead of 682,377.

* This is the estimated population in the middle of each year for which the number of paupers is given.

The foregoing figures show that in the Metropolis the number of Persons relieved in August 1894 was larger than in twenty-nine of the other thirty-seven years comprised in the Table. The proportion of Pauperism to population was, however, smaller in 1894 than in twenty-three out of the thirty-seven, and it was the same as in four other of those years. It was highest in 1868, when it reached 41·2 to the 1,000, as compared with 20·3 to the 1,000 in 1891, when it was lowest, and 21·8 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of August 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 131,426, instead of 94,974.
Ditto - - 1874 - - ditto - - 115,949 - ditto.
Ditto - - 1884 - - ditto - - 93,907 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of August 1893 and 1894.

These Statements show that in nine out of the eleven Divisions there was an increase of Pauperism in each week of the month of August 1894, as compared with the corresponding week in 1893. In the third and fourth weeks there was a decrease in the Welsh Division, but an increase in the other weeks, and in each week there was a decrease in the Northern Division. The increase was largest in the York Division. Taking the total number of Paupers in England and Wales, there was, in August 1894, as compared with 1893, an increase of 2·2 per cent. in the first week, 2·6 per cent. in the second week, 2·4 per cent. in the third week, and 2·0 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of August 1894 numbered 2,923, 2,842, 2,778, and 2,788, respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

QUARTERLY STATEMENT AS TO PAUPERISM,

Quarter ended Michaelmas 1894.

(Paupers in Lunatic Asylums, Registered Hospitals, and Licensed Houses, and Vagrants, not included.)

The Return now published completes the Monthly Comparative Statements of the Pauperism of England and Wales for the Quarter ended at Michaelmas 1894.

On referring to the Tables in the Monthly Comparative Statements for the months of July, August, and September 1894, showing the number of Paupers in receipt of relief on the last day of each week of these months for the last thirty-eight years, it will be seen that in most years a continuous decrease has taken place in the number of Paupers week by week throughout the first two months of the quarter. In 1894, however, the minimum number of Paupers was reached in the second week of July, and in the third week the number began to increase, and thereafter to increase week by week throughout the quarter, except in the last week of August and the two first weeks of September.

The Tables above referred to also show the population of the country in each year, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the last week of the month to which the Return relates, during the last thirty-eight years. On reference to them it will be seen that the number of Paupers in every 1,000 of the population was 22·6 at the end of July last, 22·7 at the end of August, and 22·8 at the end of September.

On comparing the proportion of Paupers to the population in the whole of England and Wales, it will be observed that the proportion was larger in the first two months of the quarter in the present year than in the three preceding years, and in the last month it was larger than in two out of those three years, but that it was smaller than in any of the other thirty-four years.

In the Metropolis the proportion of Paupers to population was larger in the first month of the quarter in the present year than in eight of the thirty-seven preceding years, and in the second and third months it was larger than in ten of the years.

The following Statement relates to the three Divisions of England in which the principal manufactures are carried on, namely, the North Midland, North-Western, and York Divisions. It gives the number of Paupers relieved in these Divisions on the last day of the last week of the quarters ended at Michaelmas 1890, 1891, 1892, 1893, and 1894.

Number

Number of Paupers in North Midland, North-Western, and York Divisions at the end of the Michaelmas Quarter	-	1890	- 173,569
Ditto	ditto	1891	- 168,061
Ditto	ditto	1892	- 171,031
Ditto	ditto	1893	- 186,694
Ditto	ditto	1894	- 185,743

It will be seen that there was an increase in the number of persons receiving relief in these Divisions as a whole at the end of the quarter in 1894, as compared with the three years 1890, 1891, and 1892, but a decrease as compared with the year 1893.

COMPARATIVE STATEMENT OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1894, 58,777 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,530 chargeable to the County and Borough Rates; and on the same day there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the first nine months of 1894.

The following Table shows the number of persons relieved on the corresponding days of September during the last thirty-eight years, together with the population of the country, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fourth week of the month in each year:—

It will be observed from the foregoing Table that the number of Paupers in receipt of relief in September 1894 was, notwithstanding the increase in population, smaller in each week than the number relieved in the corresponding month in 25 out of the other 37 years comprised in the Table, and it was also smaller than in some of the weeks of five other of those years. The proportion which the Paupers bore to the population of the country in the last week of the month in

* This is the estimated population in the middle of each year for which the number of paupers is given.

in 1894 was smaller than in any other year, except the three immediately preceding it. The proportion was smallest in 1892, when it fell to 21·9 to the 1,000, as compared with 22·8 to the 1,000 in 1894. In 10 out of the 14 years from 1857 to 1870 it was more than 40 to the 1,000. If the Paupers had borne the same proportion to estimated population in the last week of September 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,244,713, instead of 684,128.
Ditto - - 1874 - ditto - - 914,231 - ditto.
Ditto - - 1884 - ditto - - 765,367 - ditto.

The following Table gives similar information to that in Table I. with respect to the Pauperism of the Metropolis, apart from that of the rest of the country:—

The foregoing figures show that the number of persons relieved in the Metropolis in September 1894 was larger than in any year since 1873, except the year immediately preceding it, and was also

* This is the estimated population in the middle of each year for which the number of paupers is given.

also larger than in the years from 1857 to 1865. In only eight out of the preceding 37 years have the persons relieved in the Metropolis in the month of September exceeded the number relieved in that month in the present year. The proportion of Pauperism to population was, however, smaller in 1894 than in twenty-six out of the other thirty-seven years. It was highest in 1868, when it reached 42·0 to the 1,000, as compared with 20·4 to the 1,000 in 1891, and 22·1 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of September 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows :—

In the same proportion as in 1864 they would have numbered 132,571, instead of 96,055.

Ditto - - 1874 - - ditto - - 115,805 - ditto.

Ditto - - 1884 - - ditto - - 95,872 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of September 1893 and 1894.

These Statements show that in six out of the eleven Divisions there was an increase of Pauperism in each week of the month of September 1894, as compared with the corresponding week in 1893, whilst in two there was a decrease. In the other three Divisions there was an increase in some weeks and a decrease in others. Taking the total number of Paupers in England and Wales, there was, in September 1894, as compared with 1893, an increase of 1·3 per cent. in the first week, and 0·2 per cent. in the second week, and a decrease of 0·2 per cent. in the third week, and 0·6 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of September 1894 numbered 2,679, 2,750, 2,744, and 2,749, respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

COMPARATIVE STATEMENT OF PAUPERISM.

The Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1894, 58,777 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,530 chargeable to the County and Borough Rates; and on the same day there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the first ten months of 1894.

It will be observed from the foregoing Table that the number of Paupers in receipt of relief in October 1894 was, notwithstanding the increase in population, smaller in each week than the number relieved in the corresponding month in 27 out of the other 37 years comprised in the Table,

* This is the estimated population in the middle of each year for which the number of paupers is given.

Table, and it was also smaller than in some of the weeks of two other of those years. The proportion which the Paupers bore to the population of the country in the last week of the month in 1894 was 23·2 to the 1,000, which was smaller than in any other year, except 1890, 1891, and 1892. The proportion was smallest in 1891, when it fell to 22·2 to the 1,000, as compared with 23·2 to the 1,000 in 1894. In 10 out of the 14 years from 1857 to 1870 it was more than 40 to the 1,000. If the Paupers had borne the same proportion to estimated population in the last week of October 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

"In the same proportion as in 1864 they would have numbered 1,283,496, instead of 697,975.

The foregoing figures show that the number of persons relieved in the Metropolis in the month of October in the year 1894 was larger than in any year since 1873, except the year immediately preceding

* This is the estimated population in the middle of each year for which the number of paupers is given.

preceding it, and was also larger than in the years from 1857 to 1865. In only seven out of the preceding 37 years have the persons relieved in the Metropolis in the month of October exceeded the number relieved in that month in the present year. Moreover, the proportion of Pauperism to population was larger in 1894 than in 12 out of the 18 years since 1875. It was highest in 1868 and 1869, when it reached 42·9 to the 1,000, as compared with 21·3 to the 1,000 in 1891, when it was lowest, and 23·1 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of October 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 136,532, instead of 100,383.
Ditto - - 1874 - - ditto - - 116,210 - ditto.
Ditto - - 1884 - - ditto - - 98,491 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of October 1893 and 1894.

These Statements show that there was an increase in Pauperism in the North Midland, and a decrease in the South Eastern, North Western, York, Northern, and Welsh Divisions in each week of the month of October 1894, as compared with the corresponding week in 1893. In the remaining Divisions there was an increase in some of the weeks and a decrease in others. Taking the total number of Paupers in England and Wales, there was, in October 1894, as compared with 1893, a decrease of 0·6 per cent. in the first and last weeks, 1·1 per cent. in the second week, 0·9 per cent. in the third week, and 0·8 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the five weeks of October 1894 numbered 2,770, 2,771, 2,821, 2,898, and 2,863, respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

COMPARATIVE STATEMENT OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1894, 58,777 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,530 chargeable to the County and Borough Rates; and on the same day there were 9,480 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of the first eleven months of 1894.

It will be observed from the foregoing Table that the number of Paupers in receipt of relief in November 1894 was, notwithstanding the increase in population, smaller in each week than the number relieved in the corresponding month in 27 out of the other 37 years comprised in the Table The proportion which the Paupers bore to the population of the country in the last week of the month in 1894 was 23·8 to the 1,000, which was smaller than in any other year, except 1890, 1891, and 1892. The proportion was smallest in 1891, when it fell to 22·7 to the 1,000. In each of the 14 years from 1857 to 1870 it was more than 40 to the 1,000, and in one of those

* This is the estimated population in the middle of each year for which the number of paupers is given.

those years it reached 53·4. If the Paupers had borne the same proportion to estimated population in the last week of November 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,314,316, instead of 715,196.

The foregoing figures show that the number of persons relieved in the Metropolis in the month of November in the year 1894 was larger than in any year since 1873, except the year immediately preceding it, and was also larger than in the years from 1857 to 1865. In only seven out of the preceding

* This is the estimated population in the middle of each year for which the number of paupers is given.

preceding 37 years have the persons relieved in the Metropolis in the month of November exceeded the number relieved in that month in the present year. Moreover, the proportion of Pauperism to population was larger in 1894 than in 11 out of the 18 years since 1875. It was highest in 1868 and 1869, when it reached 45·0 and 45·6 to the 1,000, as compared with 21·8 to the 1,000 in 1891, when it was lowest, and 23·7 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of November 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows :—

In the same proportion as in 1864 they would have numbered 141,354, instead of 102,980.
Ditto - - 1874 - - ditto - - 118,924 - ditto.
Ditto - - 1884 - - ditto - - 102,087 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of November 1893 and 1894.

These Statements show that there was an increase in Pauperism in the South Western and West Midland Divisions in each week of the month of November 1894, as compared with the corresponding week in 1893; and a decrease in the Metropolis, the South Eastern, Eastern, North Western, York, and Welsh Divisions. In the other three Divisions there was a decrease in some of the weeks and an increase in others. Taking the total number of Paupers in England and Wales, there was, in November 1894, as compared with 1893, a decrease of 1·1 per cent. in the first week, 1·4 per cent. in the second week, 1·7 per cent. in the third week, and 1·6 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of November 1894 numbered 2,875, 2,889, 2,847, and 2,773, respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

QUARTERLY STATEMENT AS TO PAUPERISM,

Quarter ended Christmas 1894.

(Paupers in Lunatic Asylums, Registered Hospitals, and Licensed Houses, and Vagrants, not included.)

The Return now published completes the Monthly Comparative Statements of the Pauperism of England and Wales for the Quarter ended at Christmas 1894.

On referring to the Tables in the Monthly Comparative Statements for the months of October, November, and December 1894, showing the number of Paupers in receipt of relief on the last day of each week of these months for the last thirty-eight years, it will be seen that it is almost invariably the rule that, except in the second week of the quarter, the number of Paupers continues to increase week by week during the whole three months, and this was the case in the year 1894.

The Tables above referred to also show the population of the country in each year, as estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the last week of the month to which this Return relates, during the last thirty-eight years. On reference to them it will be seen that the number of Paupers in every 1,000 of the population was 23·2 at the end of October, 23·8 at the end of November, and 24·4 at the end of December.

On comparing the proportion of Paupers to the population in the whole of England and Wales, it will be observed that the proportion was smaller in each month of the quarter in the present year than in any of the other thirty-seven years except 1890, 1891, and 1892.

In the Metropolis the proportion of Paupers to population was larger in the first month of the quarter in the present year than in twelve of the thirty-seven preceding years, in the second month it was larger than in eleven of the years, and in the last month it was larger than in ten of the years.

The following Statement relates to the three Divisions of England in which the principal manufactures are carried on, namely, the North Midland, North-Western, and York Divisions. It gives the number of Paupers relieved in these Divisions on the last day of the last week of the quarters ended at Christmas 1890, 1891, 1892, 1893, and 1894

Number

Number of Paupers in North Midland, North-Western, and York Divisions at the end of the Christmas Quarter	-	1890	- 181,309
Ditto - - - ditto - - -		1891	- 176,436
Ditto - - - ditto - - -		1892	- 183,784
Ditto - - - ditto - - -		1893	- 195,384
Ditto - - - ditto - - -		1894	- 196,838

It will be seen that there was an increase in the number of persons receiving relief in these Divisions as a whole at the end of the quarter in 1894, as compared with the four preceding years.

COMPARATIVE STATEMENT OF PAUPERISM.

The Returns of the Number of Paupers relieved on the last day of each Week do not include the "Lunatic Paupers in Asylums, Registered Hospitals, and Licensed Houses," nor the "Vagrants" relieved. According to the last Annual Report of the Commissioners in Lunacy there were, on the 1st January 1894, 58,777 Pauper Lunatics in Asylums, Registered Hospitals, and Licensed Houses, not including 1,530 chargeable to the County and Borough Rates; and on the 1st July 1894 there were 6,916 Vagrants relieved at the cost of the Poor Rate.

This Return shows that the following were the numbers of persons (excluding lunatics in asylums, registered hospitals, and licensed houses, and vagrants) who were relieved in England and Wales on the last day in each week of 1894.

The following Table shows the number of persons relieved on the corresponding days of December during the last thirty-eight years, together with the population of the country, as estimated

estimated in the Registrar General's Annual Reports and Quarterly Returns, and the number of Paupers in every 1,000 of the population on the last day of the fourth week of the month in each year;—

It will be observed from the foregoing Table that the number of Paupers in receipt of relief in December 1894 was, notwithstanding the increase in population, smaller in each week than the number relieved in the corresponding month in 26 out of the other 37 years comprised in the Table, and it was also smaller than in some of the weeks of two other of those years. The proportion which the Paupers bore to the population of the country in the last week of the month in 1894 was 24·4 to the 1,000, which was smaller than in any other year, except 1890, 1891, and 1892. The proportion was smallest in 1891, when it fell to 23·2 to the 1,000. In each of the 14 years from 1857 to 1870 it was more than 40 to the 1,000, and in one of those

* This is the estimated population in the middle of each year for which the number of paupers is given.

those years it reached 54·3. If the Paupers had borne the same proportion to estimated population in the last week of December 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in 1864 they would have numbered 1,336,367, instead of 732,518.
Ditto - - 1874 - ditto - - 950,820 - ditto.
Ditto - - 1884 - ditto - - 808,050 - ditto.

The following Table gives similar information to that in Table I. with respect to the Pauperism of the Metropolis, apart from that of the rest of the country:—

The foregoing figures show that the number of persons relieved in the Metropolis in the month of December in the year 1894 was larger than in any year since 1873, except the year immediately preceding it, and was also larger than in the years from 1857 to 1865. In only eight out of the preceding

* This is the estimated population in the middle of each year for which the number of paupers is given.

preceding 37 years have the persons relieved in the Metropolis in the month of December exceeded the number relieved in that month in the present year. Moreover, the proportion of Pauperism to population was larger in 1894 than in 10 out of the 18 years since 1875. It was highest in 1867 and 1869, when it reached 47·8 and 48·1 to the 1,000, as compared with 22·4 to the 1,000 in 1891, when it was lowest, and 24·0 to the 1,000 in 1894.

If the Paupers had borne the same proportion to estimated population in the last week of December 1894 as they did in that week in 1864, 1874, and 1884 respectively, the numbers would have been as follows :—

In the same proportion as in 1864 they would have numbered 146,121, instead of 104,242.
Ditto - - 1874 - - ditto - - 123,546 - ditto.
Ditto - - 1884 - - ditto - - 103,812 - ditto.

The next Tables show what proportion of the total number of Paupers in the first and last weeks of the month received In-door Relief, and what proportion received Out-door Relief, during the same series of years.

The following Comparative Statements give particulars of the number of Paupers relieved in each Division of England and Wales on the last day of each week in the months of December 1893 and 1894.

These Statements show that there was an increase in Pauperism in the South Western, West Midland, and North Midland Divisions in each week of the month of December 1894, as compared with the corresponding week in 1893; and a decrease in the Metropolis, the South Eastern, South Midland, and Welsh Divisions. In the other four Divisions there was a decrease in some of the weeks and an increase in others. Taking the total number of Paupers in England and Wales, there was, in December 1894, as compared with 1893, a decrease of 1·1 per cent. in the first week, 0·7 per cent. in the second week, and 0·1 per cent. in the third week, and an increase of 0·5 per cent. in the fourth week.

These Statements do not include the patients in the Fever and Small-Pox hospitals belonging to the Metropolitan Asylums Board. The patients in these hospitals on the last day of each of the four weeks of December 1894 numbered 2,795, 2,686, 2,589, and 2,564, respectively.

The Statements are arranged under the eleven Divisions adopted in the tabulation of the Census Returns. These Divisions, and the counties or parts of counties comprised therein, are:—

1. **THE METROPOLIS**, containing all the County of London, except the Hamlet of Penge.
2. **THE SOUTH EASTERN DIVISION**, containing Surrey, Kent, Sussex, Southampton, and Berks.
3. **THE SOUTH MIDLAND DIVISION**, containing Middlesex, Hertford, Buckingham, Oxford, Northampton, Huntingdon, Bedford, and Cambridge.
4. **THE EASTERN DIVISION**, containing Essex, Suffolk, and Norfolk.
5. **THE SOUTH WESTERN DIVISION**, containing Wilts, Dorset, Devon, Cornwall, and Somerset.
6. **THE WEST MIDLAND DIVISION**, containing Gloucester, Hereford, Salop, Stafford, Worcester, and Warwick.
7. **THE NORTH MIDLAND DIVISION**, containing Leicester, Rutland, Lincoln, Nottingham, and Derby.
8. **THE NORTH WESTERN DIVISION**, containing Chester and Lancaster.
9. **THE YORK DIVISION**, containing West Riding, East Riding, and North Riding.
10. **THE NORTHERN DIVISION**, containing Durham, Northumberland, Cumberland, and Westmorland.
11. **THE WELSH DIVISION**, containing Monmouth, South Wales, and North Wales.

No. 1.—Remarks on the Returns of Pauperism, 1st January 1894.

Total number of paupers.

The total number of Paupers in receipt of relief on the 1st January 1894, in the 648 Unions and Parishes under separate Boards of Guardians in England and Wales, is shown in the following Table :—

Table I.

In-door.	Out-door.	Gross Total.	Deduct Persons relieved both In-door and Out-door, on the 1st January.	Net Total.
221,692	600,371	822,063	142	821,921

Ratio of paupers to population.

The population of England and Wales, as estimated by the Registrar General, was 29,731,100 in the middle of the year 1893. Taking this as the basis of the calculation, the Paupers relieved on the 1st of January 1894 amounted to one out of every 36 persons, or 2·8 per cent. of the population.

Classes of paupers.

The next Table shows the number of Paupers relieved in each of the different classes therein set forth, distinguishing those receiving in-door relief from those in receipt of out-door relief :—

Table II.

Classes of Paupers.	In-door.	Out-door.	Total.
Able-bodied Males (Adult)*	20,922	18,097	39,019
Able-bodied Females (Adult)	17,997	59,462	77,459

Males	6,946	28,005†	34,951
Females	8,808	35,270†	44,078
Children under 16	1,242	746†	1,988
Total	221,692	600,371	822,063‡

The Paupers classed as "In-door" comprise the Paupers in all establishments under the control of the Guardians and in District Schools, and also the Paupers in some establishments not under the control of the Guardians, such as schools certified under the 25 & 26 Vict. c. 43; institutions for idiots under

* The "Adult Able-bodied Males," relieved included those relieved (1) on account of sudden and urgent necessity; (2) on account of their own sickness, accident, or infirmity; (3) on account of the sickness, accident, or infirmity of some member of the family, or of a funeral; and (4) on account of want of work. It will be seen from page iv that no less than 15,116 out of the 18,097 adult able-bodied males who received out-door relief were relieved on account of one or other of the first three of these causes, and from page iii that of the 20,922 adult able-bodied males who received in-door relief 11,010 were temporarily disabled.

† The majority of Insane Paupers here classed as "Out-door" are in Lunatic Asylums, Registered Hospitals, or Licensed Houses. They numbered 59,033, of whom 26,090 were males, 32,298 females, and 645 children.

‡ This includes the 142 persons who received both in-door and out-door relief on the 1st January, as shown in Table I.

under the 31 & 32 Vict. c. 122; schools for deaf and dumb, or blind, not certified under the 25 & 26 Vict. c. 43; and other similar institutions.

The number of in-door Paupers, exclusive of vagrants, in the two classes of establishments, was as follows:—

In establishments under the control of Guardians	205,446
In establishments not under the control of Guardians, viz.:—	
Certified schools	4,967
Hospitals or other institutions	2,216
TOTAL	212,629

The numbers of adult in-door Paupers classified as "Able-bodied," who were in health or who were temporarily disabled, were as follows:—

Able-bodied Males:	
In health	9,912
Temporarily disabled	11,010
Able-bodied Females:	
In health	9,662
Temporarily disabled	8,335

The patients sent from the Metropolitan Unions and Parishes to the Fever and Small-pox Hospitals provided by the Managers of the Metropolitan Asylum District, who numbered 3,410 on the 1st January, are not included in the Return, as it is provided by Section 7 of the Diseases Prevention (Metropolis) Act, 1883, that the admission to such an hospital of a person suffering from infectious disease, or the maintenance of any such person therein, shall not be considered to be parochial relief.

Children boarded out either within or beyond the limits of the Union to which they are chargeable are classed among the out-door poor. The number of such children on the 1st January 1894 was—

Children boarded out within the Union	3,663
Children boarded out beyond the Union	1,802
TOTAL	5,465

The total number of children under 16 years of age, exclusive of the Insane, was 246,934, of whom 55,333 were in receipt of in-door relief, and 191,601 were receiving out-door relief. Those in receipt of in-door relief included—

Illegitimate children of inmates	6,492
Orphans or other children relieved without their parents	34,828
Children of able-bodied inmates	10,596
Children of not able-bodied inmates	3,417
TOTAL	55,333

The children receiving out-door relief included—

Children resident with their able-bodied fathers who had obtained relief	37,880*
Children dependent on widows	111,171
Illegitimate children with their mothers	553
Children relieved on account of parents being in gaol, &c.	2,840
Children of soldiers, sailors, and marines	300
Children of other non-resident males	8,456
Children of parents who were not able-bodied	20,430
Orphans or other children relieved without parents	9,971
TOTAL	191,601

* It has been ascertained that a small number of children whose fathers were not able-bodied, or were lunatics in asylums, or had been admitted to infirmaries are included under this heading.

The adult male Paupers in receipt of out-door relief, who are classified as "Able-bodied" in the Returns, were relieved for the following causes:—

On account of sudden and urgent necessity	216
On account of their own sickness, accident, or infirmity	10,291
On account of the sickness, accident, or infirmity of some member of the family, or of a funeral	4,609
On account of want of work or other causes	2,981
TOTAL	18,097

The adult female Paupers in receipt of out-door relief, who are classified as "Able-bodied" in the Returns, are subdivided into the following classes:—

Wives of able-bodied men relieved	13,654*
Widows	38,599
Single women without children	2,846
Mothers of illegitimate children	347
Wives relieved on account of husbands being in gaol, &c.	871
Wives of soldiers, sailors, and marines	125
Wives of other non-resident males	3,020
TOTAL	59,462

It further appears from the Returns that the number of the out-door Paupers who were in receipt of medical relief only was 19,821, of whom 6,638 were males, 7,215 females, and 5,968 children.

Number of paupers in the several Poor Law Divisions.

The numbers of in-door and out-door Paupers, and the total number in every 1,000 of the estimated population, are shown in the next Table with regard to the several Divisions, the Divisions being arranged according to the proportion which the total number of Paupers bears to the estimated population:—

Number of paupers in the several Union-Counties.

The following statement shows the numbers of in-door and out-door Paupers, and the total number in every 1,000 of the estimated population in Union-Counties, the Union-Counties being arranged according to the proportion which the total number of Paupers bears to the estimated population:—

* It has been ascertained that a small number of wives of men who were not able-bodied, or were lunatics in asylums, or had been admitted to infirmaries are included under this heading.

† The estimated population in the middle of 1893 of the Divisions and the Union-Counties has been furnished by the Registrar General.

It will be seen that the variations in the amount of pauperism in the several Union-Counties, as compared with population, are very considerable. The proportion which the Paupers bore to the estimated population was smallest in the Union-Counties of Lancaster and York, West Riding, and in these counties the proportion was not half as great as it was in Norfolk, Dorset, North Wales, Hereford, Wilts, Suffolk, Devon, Hertford, and Somerset. In Lancaster the out-door pauperism was smaller as compared with population than in any of the other 44 Union-Counties, whilst the in-door pauperism was only smaller than in 11 of those Union-Counties. In the West Riding, both the out-door pauperism and the in-door pauperism as compared with population was smaller than in 41 out of the other Union Counties.

The next Table has been prepared with the view of showing the variations in the number of Paupers in the several Divisions of England and Wales, in January 1894, as compared with January 1893:—

TABLE V.

ENGLAND AND WALES	206,727	576,870	783,597	221,692	600,229	821,921	4·9	—

The foregoing Table shows that in every Division but one there was an increase in the number of Paupers relieved on the 1st January 1894, as compared with the number relieved on the same day in 1893, and that there was a net increase in the total pauperism in England and Wales of 4·9 per cent. in 1894. The largest numerical increase took place in the Metropolis, and the largest proportional increase in the Eastern Division.

It will be seen from the foregoing Table that the proportion which the Paupers relieved on the 1st of January 1894 bore to the estimated population was

* This is the estimated population in the middle of each year preceding the year for which the number of Paupers is given.

† Including (*a*) 863 ; (*b*) 748 ; (*c*) 811 ; (*d*) 727 ; (*e*) 797 ; (*f*) 360 ; (*g*) 459 ; (*h*) 709 ; (*i*) 623 ; (*j*) 439 ; cases of medical relief not included in the preceding columns.

Comparative Tables.

was smaller than it had been on the same day in any of the years comprised in the Table except the three immediately preceding it. The number of Paupers relieved on that day was, however, larger than the number relieved on the same day in sixteen out of the thirty-six preceding years.

The smallest number of Paupers relieved on the 1st January in any of the years comprised in the Table was in 1877, when there were 89,398, or 10·9 per cent., fewer Paupers in receipt of relief than in 1894.

The highest numbers relieved were in the years 1863, 1864, 1868, 1869, 1870, and 1871, when the numbers were 1,142,624, 1,011,753, 1,040,103, 1,046,569, 1,084,821, and 1,085,661, as compared with 821,921 in 1894. When the growth of population is taken into consideration, the comparison is more favourable for the present year, as it appears that in the years from 1858 to 1872 the proportion of Paupers to population ranged from over 42 to over 56 to the 1,000, whilst in 1894 the proportion was only 27·6 to the 1,000. If the Paupers had borne the same proportion to estimated population on 1st January 1894, as they did on that day in 1864, 1874, and 1884, respectively, the numbers would have been as follows :—

In the same proportion as in—

1864 they would have numbered 1,458,389 instead of 821,921.
1874 „ „ 1,057,189 „ „
1884 „ „ 869,868 „ „

It will be observed that of late years the number of out-door Paupers has formed a much smaller proportion of the total number relieved than formerly, and that there was a smaller number of Paupers of this class on the 1st of January 1894 than on the same day in twenty-nine of the other thirty-six years. The number of vagrants relieved fluctuates considerably, but it was very considerably larger in 1894 than in any of the other years. It is to be regretted that the Table again shows an increase in the number of insane Paupers, who have increased year by year from 20,975 in 1858 to 81,017 in 1894.

The next Table shows the number of adult able-bodied persons in receipt of relief on the 1st January in each of the years comprised in the preceding Table:—

These figures show that the number of adult Paupers classed in the Returns as able-bodied, who were in receipt of relief on the 1st of January 1894, was larger than the number relieved on the same day in eighteen out of the twenty preceding years, but smaller than in the other eighteen years contained in the Table. The numbers relieved were highest in the year 1863, when exceptional distress prevailed owing to the cotton famine. Excluding that year for the purposes of comparison, the years in which the Paupers of this class in receipt of relief on the 1st of January were most numerous were the

years 1870, and 1871, when the numbers were 194,089, and 189,839 respectively, as compared with 116,478 in 1894. In the two years in question the proportions of these Paupers to the estimated population were 8·7, and 8·4 per 1,000. In 1894 the proportion had fallen to 3·9 per 1,000. If the Paupers of this class had borne the same proportion to estimated population on 1st January 1894, as they did on that day in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in—

1864	they would have numbered	269,196	instead of	116,478.
1874	„	„	145,202	„	„
1884	„	„	109,505	„	„

In each year by far the larger number of the Paupers of this class were females in receipt of out-door relief.

Vagrants are not included in Table VII. because the Returns do not show whether vagrants are able-bodied or not able-bodied.

No. 1.—Remarks on the Returns of Pauperism, 1st July 1894.

Total number of paupers.

The total number of Paupers in receipt of relief on the 1st July 1894, in the 648 Unions and Parishes under separate Boards of Guardians in England and Wales, is shown in the following Table:—

Table I.

In-door.	Out-door.	Gross Total.	Deduct Persons relieved both In-door and Out-door, on the 1st July.	Net Total.
192,383	573,938	766,321	87	766,234

Ratio of paupers to population.

The population of England and Wales, as estimated by the Registrar General, was 30,060,763 in the middle of the year 1894. Taking this as the basis of the calculation, the Paupers relieved on the 1st of July 1894 amounted to one out of every 39 persons, or 2·5 per cent. of the population.

Classes of paupers.

The next Table shows the number of Paupers relieved in each of the different classes therein set forth, distinguishing those receiving in-door relief from those in receipt of out-door relief:—

Table II.

Classes of Paupers.	In-door.	Out-door.	Total.
Able-bodied Males (Adult)*	13,489	12,334	25,823
Able-bodied Females (Adult)	15,532	53,808	69,340
Children under 16 of Able-bodied Parents relieved	13,740	148,007	161,747
Not Able-bodied Males (Adult)	51,462	74,870	126,332
Not Able-bodied Females (Adult)	37,181	190,223	227,404
Children under 16 relieved with Not Able-bodied Parents, or without Parents.	37,142	29,707	66,849
Vagrants	6,663	253	6,916
Insane:			
Males	6,859	28,305†	35,164
Females	8,725	35,883†	44,608
Children under 16	1,590	548†	2,138
Total	192,383	573,938	766,321‡

The Paupers classed as "In-door" comprise the Paupers in all establishments under the control of the Guardians and in District Schools, and also the Paupers in some establishments not under the control of the Guardians, such as schools certified under the 25 & 26 Vict. c. 43; institutions for idiots under

* The "Adult Able-bodied Males," who received out-door relief, included those relieved (1) on account of sudden and urgent necessity; (2) on account of their own sickness, accident, or infirmity; (3) on account of the sickness, accident, or infirmity of some member of the family, or of a funeral; and (4) on account of want of work. It will be seen from page iv that no less than 11,563 out of the 12,334 adult able-bodied males who received out-door relief were relieved on account of one or other of the first three of these causes, and from page iii that of the 13,489 adult able-bodied males who received in-door relief 7,805 were temporarily disabled.

† The majority of Insane Paupers here classed as "Out-door" are in Lunatic Asylums, Registered Hospitals, or Licensed Houses. They numbered 59,849, of whom 26,461 were males, 32,950 females, and 438 children.

‡ This includes the 87 persons who received both in-door and out-door relief on the 1st July, as shown in Table I.

under the 31 & 32 Vict. c. 122; schools for deaf and dumb, or blind, not certified under the 25 & 26 Vict. c. 43; and other similar institutions.

The numbers of in-door Paupers, exclusive of vagrants, in the two classes of establishments, are as follows:—

In establishments under the control of Guardians	178,691
In establishments not under the control of Guardians, viz.:—	
Certified schools	4,871
Hospitals or other institutions	2,158
TOTAL	185,720

The numbers of adult in-door Paupers classified as "Able-bodied," who were in health or who were temporarily disabled, are as follows:—

Able-bodied Males:	
In health	5,684
Temporarily disabled	7,805
Able-bodied Females:	
In health	7,912
Temporarily disabled	7,620

The patients sent from the Metropolitan Unions and Parishes to the Fever and Small-pox Hospitals provided by the Managers of the Metropolitan Asylum District, who numbered 2,712 on the 1st July, are not included in the Return, as it is provided by Section 80 (4) of the Public Health (London) Act (1891) that the admission to such an hospital of a person suffering from infectious disease, or the maintenance of any such person therein, shall not be considered to be parochial relief.

Children boarded out either within or beyond the limits of the Union to which they are chargeable are classed among the out-door poor. The numbers of such children on the 1st July 1894 were—

Children boarded out within the Union	3,712
Children boarded out beyond the Union	1,798
TOTAL	5,510

The total number of children under 16 years of age, exclusive of the Insane, was 228,596, of whom 50,882 were in receipt of in-door relief, and 177,714 were receiving out-door relief. Those in receipt of in-door relief included—

Illegitimate children of inmates	5,687
Orphans or other children relieved without their parents	33,316
Children of able-bodied inmates	9,013
Children of not able-bodied inmates	2,866
TOTAL	50,882

The children receiving out-door relief included—

Children resident with their able-bodied fathers who had obtained relief	24,610*
Children dependent on widows	111,536
Illegitimate children with their mothers	443
Children relieved on account of parents being in gaol, &c.	3,061
Children of soldiers, sailors, and marines	332
Children of other non-resident males	8,025
Children of parents who were not able-bodied	19,711
Orphans or other children relieved without parents	9,996
TOTAL	177,714

* It has been ascertained that a small number of children whose fathers were not able-bodied, or were lunatics in asylums, or had been admitted to infirmaries, are included under this heading.

The adult male Paupers in receipt of out-door relief, who are classified as "Able-bodied" in the Returns, were relieved for the following causes:—

On account of sudden and urgent necessity	88
On account of their own sickness, accident, or infirmity	7,796
On account of the sickness, accident, or infirmity of some member of the family, or of a funeral	3,679
On account of want of work or other causes	771
TOTAL	12,334

The adult female Paupers in receipt of out-door relief, who are classified as "Able-bodied" in the Returns, are subdivided into the following classes:—

Wives of able-bodied men relieved	8,981
Widows	38,092
Single women without children	2,573
Mothers of illegitimate children	280
Wives relieved on account of husbands being in gaol, &c.	916
Wives of soldiers, sailors, and marines	128
Wives of other non-resident males	2,838
TOTAL	53,808

It further appears from the Returns that the number of the out-door Paupers who were in receipt of medical relief only was 15,312, of whom 5,027 were males, 5,713 females, and 4,572 children.

Number of paupers in the several Poor Law Divisions.

The numbers of in-door and out-door Paupers, and the total number in every 1,000 of the estimated population, are shown in the next Table with regard to the several Divisions, the Divisions being arranged according to the proportion which the total number of Paupers bears to the estimated population:—

Number of paupers in the several Union-Counties.

It will be seen that the variations in the amount of pauperism in the several Union-Counties, as compared with population, are very considerable. The proportion which the Paupers bore to the estimated population was smallest in the Union-Counties of Middlesex and Lancaster, and in those counties the proportion was not half as great as it was in Norfolk, Dorset, North Wales, Devon, Somerset, Wiltshire, Cornwall, Hereford, and Suffolk. It is also noticeable that in Lancaster, where the out-door pauperism is smaller as compared with population than in any other Union-County except London, the in-door pauperism is also smaller than in 11 out of the other 44 Union-Counties. In Middlesex, the county with the smallest proportion of pauperism, the out-door pauperism exceeds that of three other Union-Counties, and the in-door pauperism exceeds that of nine other Union-Counties.

Comparative Tables.

The next Table has been prepared with the view of showing the variations in the number of Paupers in the several Divisions of England and Wales, in July 1894, as compared with July 1893:—

ENGLAND AND WALES	188,985	564,961	753,946	192,383	573,851	766,234	1·6	—

The foregoing Table shows that in every Division but one there was an increase in the number of Paupers relieved on the 1st July 1894, as compared with the number relieved on the same day in 1893, and that there was a net increase in the total pauperism in England and Wales of 1·6 per cent. in 1894. The largest increase both in the actual number of paupers and in the proportional number to population took place in the York Division.

The

Comparative Tables.

The following Table has been prepared with a view of showing for a series of years the total number of Paupers of all classes on the 1st July in each year, distinguishing the in-door and out-door, exclusive of the vagrants and insane, and showing these latter classes of Paupers separately :—

It will be seen from the foregoing Table that, although the number of Paupers relieved on the 1st of July 1894 was, notwithstanding the growth of population, considerably smaller than the number relieved on the same day in

* This is the estimated population in the middle of each year for which the number of Paupers is given.

‡ In the Return for the 1st July 1890 the number of Insane Paupers on that date was incorrectly given as 76,086 instead of 75,086.

Comparative Tables.

in any year from 1858 to 1874, it was larger than in 13 out of the 19 years from 1875 to 1893. The proportion which the number of paupers on 1st July 1894 bore to the population was smaller than in any year except the three immediately preceding it.

The smallest number of Paupers relieved on the 1st July in any of the years comprised in the Table was in 1876, when there were 58,859, or 7·7 per cent., fewer Paupers in receipt of relief than in 1894.

The highest numbers relieved were in the years 1863, 1868, 1869, 1870, and 1871, when the numbers were 999,974, 971,377, 977,700, 987,872, and 973,294, as compared with 766,234 in 1894. When the growth of population is taken into consideration, the comparison is more favourable for the present year, as it appears that in every year from 1858 to 1871 the proportion of Paupers to population exceeded 40 to the 1,000, whilst in 1894 the proportion was only 25·5 to the 1,000.

If the Paupers had borne the same proportion to estimated population on 1st July 1894 as they did on that day in 1864, 1874, and 1884, respectively, the numbers would have been as follows :—

In the same proportion as in—

1864 they would have numbered 1,312,577 instead of 766,234.
1874 „ „ 993,382 „ „
1884 „ „ 836,303 „ „

It will be observed that of late years the number of out-door Paupers has formed a much smaller proportion of the total number relieved than formerly, and that there was a smaller number of Paupers of this class on the 1st of July 1894 than on the same day in any of the other years comprised in the Table except the four preceding years. The number of indoor Paupers on the 1st July 1894 was, however, larger than the number relieved on the same day in any other year. The number of vagrants relieved fluctuates considerably, but the number in 1894, although considerably smaller than in 1893, was only exceeded in four other years. There is again an increase in the number of insane Paupers, who have increased year by year from 21,456 in 1858 to 81,910 in 1894.

The next Table shows the number of adult able-bodied persons in receipt of relief on the 1st July in each of the years comprised in the preceding Table:—

1894	13,489	15,532	12,334	53,808	95,163	3·2

These figures show that the number of adult Paupers classed in the Returns as able-bodied, who were in receipt of relief on the 1st of July 1894, was, like the total number of Paupers, smaller than the number relieved on that day in the earlier years comprised in the Table, but that it was larger than the number relieved on the same day in 16 out of the 19 years from 1875 to 1893. The largest increase in this class of Paupers was in the adult males relieved in workhouses. The numbers relieved were highest in the years 1862 and 1863, when exceptional distress prevailed owing to the cotton

famine. Excluding these years for the purposes of comparison, the years in which the Paupers of this class in receipt of relief on the 1st of July were most numerous were the years 1868, 1869, and 1870, when the numbers were 155,208, 154,975, and 154,955 respectively, as compared with 95,163 in 1894. In the three years in question the proportions of these Paupers to the estimated population were 7·1, 7·0, and 6·9 per 1,000. In 1894 the proportion was 3·2 per 1·000. If the Paupers of this class had borne the same proportion to estimated population on 1st July 1894 as they did on that day in 1864, 1874, and 1884 respectively, the numbers would have been as follows:—

In the same proportion as in—

1864	they would have numbered	213,063	instead of	95,163.
1874	„	„	128,734	„	„
1884	„	„	99,666	„	„

In each year by far the larger number of the Paupers of this class were females in receipt of out-door relief.

Vagrants are not included in Table VII. because the Returns do not show whether vagrants are able-bodied or not able-bodied.

No. 1.—REMARKS ON THE RETURNS OF IN-MAINTENANCE AND OUT-DOOR RELIEF.

Half-Year ended Lady-Day 1894.

The Half-yearly Returns of In-Maintenance and Out-door Relief show separately, with regard to In-Maintenance, the amount expended on (1) the maintenance of Paupers relieved in Workhouses and other Establishments under the control of the Guardians; and (2) the maintenance of Paupers in Institutions not under the control of the Guardians. Both items of expenditure are classed together, in the comparative Tables, under the head of In-Maintenance. As regards Out-door Relief, details are given as to the following items of expenditure: (1) Relief in money, other than separate payments for school fees; (2) "Further relief" for school fees; (3) Relief in kind; and (4) Relief to children boarded out.

The expenditure on "In-Maintenance" comprises all the expenses incurred in and about the maintenance, treatment, and relief of the Paupers in Workhouses and other Poor Law Institutions under the control of Boards of Guardians or the Managers of Asylum and School Districts, exclusive of repairs and furniture, and the salaries, remuneration, and rations of the officers and servants, but inclusive of charges for apprentice fees, outfits, burials, and the necessary expenses incurred in warming, cleansing, and lighting the Workhouses or Institutions above referred to, and otherwise keeping them fit for daily use. It also includes, for the purposes of these Returns, the expenses of the maintenance of Paupers in Institutions not under the control of the Guardians or Managers.

The expenditure on "Out-door Relief" comprises the charges for all relief, whether afforded in money or in kind, school fees, schooling, and other expenses incurred with respect to Paupers relieved out of the Workhouses or other Institutions above referred to, exclusive of the salaries of officers, the charges for relief stations, and the expenditure on the maintenance of Lunatics in Asylums, Registered Hospitals, and Licensed Houses.

The amounts expended on "In-Maintenance" and "Out-door Relief" in the 648 Unions and Parishes under separate Boards of Guardians in England and Wales, during the half-year ended at Lady-Day 1894, were as follows:—

In-Maintenance.	Out-door Relief.	Total.
£.	£.	£.
1,238,965	1,228,915	2,467,880

The expenditure during the half-year on In-Maintenance and Out-door Relief in each Division of England and Wales is shown in the following Table, together with the cost per head of each kind of relief on the estimated population

population in the middle of the year 1893. The Divisions have been arranged according to the aggregate cost of the In-Maintenance and Out-door Relief:—

* The estimated population in the middle of 1893 of the Divisions and the Union-Counties has been furnished by the Registrar General.

The expenditure on "In-Maintenance" comprised the following items :—

	£.
In-Maintenance in Workhouses and other Establishments under the control of the Guardians or Managers	1,178,091
Maintenance of Paupers in Institutions not under the control of the Guardians or Managers	60,874

Of the latter amount, 33,913*l.* was expended on Pauper Children in Schools certified under the 25 & 26 Vict. c. 43 ; and the remainder, namely, 26,961*l.*, on Paupers in Hospitals, Institutions for the blind or deaf and dumb under 30 & 31 Vict. c. 106, s. 21, Asylums for Idiots, and Schools for deaf and dumb or blind, not certified under the 25 & 26 Vict. c. 43, and other similar Institutions. The expenditure on In-Maintenance in establishments under the control of Guardians includes the sum of 47,507*l.* for patients in the Asylums for

for Imbeciles and Idiots provided by the Managers of the Metropolitan Asylum District. The expenditure by Guardians in respect of the maintenance of patients in the Small Pox and Fever Asylums of the Managers (which amounted to 26,344*l.* during the half-year) has not, however, been included in this Return, because Section 80 (4) of the Public Health (London) Act, 1891, enacts that the admission of a person suffering from infectious disease into any hospital provided by the Managers, or the maintenance of any such person therein, shall not be considered to be parochial relief. The expenditure referred to includes expenses incurred for the maintenance of patients suffering from diphtheria, who may be now admitted to the Asylums under the provisions of Section 80 (1) of the Act referred to.

It is to be borne in mind that the cost of maintenance of Lunatic Paupers in County and Borough Asylums, Registered Hospitals, and Licensed Houses is not included in these Returns.

The several items of expenditure on account of Out-door Relief during the half-year were as follows :—

	£.
In Money, other than payments for School Fees	1,090,328
Further Relief for School Fees	682
In Kind	111,643
For Children boarded out	26,262
	£. 1,228,915

It will be observed that a very small amount is now included in the expenditure on Out-door Relief in respect of "further Relief for School Fees." This is due to the Elementary Education Act, 1891, the result of which has been to reduce the amount given by way of further Relief for School Fees to 682*l.* during the half-year as compared with 834*l.* so expended in the corresponding half-year of 1893, 3,853*l.* in the corresponding half-year of 1892, and 13,765*l.* in the corresponding half-year of 1891. In 22 out of the 45 Union-Counties no expenditure whatever was incurred on this account.

The expenditure on relief to children boarded out comprised 14,799*l.* in respect of children boarded out within the Union, and 11,463*l.* in respect of children boarded out beyond the Union, to which they were chargeable. This expenditure was incurred by 327 Boards of Guardians.

No. 1.—REMARKS ON THE RETURNS OF IN-MAINTENANCE AND OUT-DOOR RELIEF.

Half-Year ended Michaelmas 1894.

The Half-yearly Returns of In-Maintenance and Out-door Relief show separately, with regard to In-Maintenance, the amount expended on (1) the maintenance of Paupers relieved in Workhouses and other Establishments under the control of the Guardians; and (2) the maintenance of Paupers in Institutions not under the control of the Guardians. Both items of expenditure are classed together, in the comparative Tables, under the head of In-Maintenance. As regards Out-door Relief, details are given as to the following items of expenditure: (1) Relief in money, other than separate payments for school fees; (2) "Further relief" for school fees; (3) Relief in kind; and (4) Relief to children boarded out.

The expenditure on "In-Maintenance" comprises all the expenses incurred in and about the maintenance, treatment, and relief of the Paupers in Workhouses and other Poor Law Institutions under the control of Boards of Guardians or the Managers of Asylum and School Districts, exclusive of repairs and furniture, and the salaries, remuneration, and rations of the officers and servants, but inclusive of charges for apprentice fees, outfits, burials, and the necessary expenses incurred in warming, cleansing, and lighting the Workhouses or Institutions above referred to, and otherwise keeping them fit for daily use. It also includes, for the purposes of these Returns, the expenses of the maintenance of Paupers in Institutions not under the control of the Guardians or Managers.

The expenditure on "Out-door Relief" comprises the charges for all relief, whether afforded in money or in kind, school fees, schooling, and other expenses incurred with respect to Paupers relieved out of the Workhouses or other Institutions above referred to, exclusive of the salaries of officers, the charges for relief stations, and the expenditure on the maintenance of Lunatics in Asylums, Registered Hospitals, and Licensed Houses.

The amounts expended on "In-Maintenance" and "Out-door Relief" in the 648 Unions and Parishes under separate Boards of Guardians in England and Wales, during the half-year ended at Michaelmas 1894, were as follows:—

In-Maintenance.	Out-door Relief.	Total.
£.	£.	£.
1,067,681	1,233,567	2,301,248

The expenditure during the half-year on In-Maintenance and Out-door Relief in each Division of England and Wales is shown in the following Table, together with the cost per head of each kind of relief on the estimated population

population in the middle of the year 1894. The Divisions have been arranged according to the aggregate cost of the In-Maintenance and Out-door Relief:—

* The estimated population in the middle of 1894 of the Divisions and the Union-Counties has been furnished by the Registrar General.

The expenditure on "In-Maintenance" comprised the following items :—

	£.
In-Maintenance in Workhouses and other Establishments under the control of the Guardians or Managers	1,009,487
Maintenance of Paupers in Institutions not under the control of the Guardians or Managers	58,194

Of the latter amount, 33,919*l.* was expended on Pauper Children in Schools certified under the 25 & 26 Vict. c. 43 ; and the remainder, namely, 24,275*l.*, on Paupers in Hospitals, Institutions for the blind or deaf and dumb under 30 & 31 Vict. c. 106, s. 21, Asylums for Idiots, and Schools for deaf and dumb or blind, not certified under the 25 & 26 Vict. c. 43, and other similar Institutions. The expenditure on In-Maintenance in establishments under the control of Guardians includes the sum of 33,999*l.* for patients in the Asylums for

for Imbeciles and Idiots provided by the Managers of the Metropolitan Asylum District. The expenditure by Guardians in respect of the maintenance of patients in the Small Pox and Fever Asylums of the Managers (which amounted to 19,583*l.* during the half-year) has not, however, been included in this Return, because Section 80 (4) of the Public Health (London) Act, 1891, enacts that the admission of a person suffering from infectious disease into any hospital provided by the Managers, or the maintenance of any such person therein, shall not be considered to be parochial relief. The expenditure referred to includes expenses incurred for the maintenance of patients suffering from diphtheria, who may be now admitted to the Asylums under the provisions of Section 80 (1) of the Act referred to.

It is to be borne in mind that the cost of maintenance of Lunatic Paupers in County and Borough Asylums, Registered Hospitals, and Licensed Houses is not included in these Returns.

The several items of expenditure on account of Out-door Relief during the half-year were as follows :—

	£.
In Money, other than payments for School Fees	1,113,264
Further Relief for School Fees	685
In Kind	91,874
For Children boarded out	27,744
	£. 1,233,567

It will be observed that a very small amount is now included in the expenditure on Out-door Relief in respect of "further Relief for School Fees." This is due to the Elementary Education Act, 1891, the result of which has been to reduce the amount given by way of further Relief for School Fees, to 685*l.* during the half-year as compared with 737*l.* so expended in the corresponding half-year of 1893, 888*l.* in the corresponding half-year of 1892, and 14,914*l.* in the corresponding half-year of 1891. In 23 out of the 45 Union-Counties no expenditure whatever was incurred on this account.

The expenditure on relief to children boarded out comprised 15,787*l.* in respect of children boarded out within the Union, and 11,957*l.* in respect of children boarded out beyond the Union, to which they were chargeable. This expenditure was incurred by 330 Boards of Guardians.

INTRODUCTORY AND EXPLANATORY OBSERVATIONS.

1. Total amount of local taxation of Ireland.

The local taxation of Ireland, making the deductions ascertained to be necessary on account of sums which appear twice in the receipts of local authorities consequent on the fact that contributions are sometimes made from the taxation of one local authority towards the expenditure of another, may be set down for the year 1893 at £3,697,949, being an increase of £107,710, or 3 per cent. on the amount in the previous year.

This sum is compared with the corresponding amounts in preceding years since 1866, in the following table :—

As regards the amount of taxation given in the foregoing table for the year 1892, it will be observed from the introductory observations to the Returns for that year that

at the time of their completion one local return had not been received, and, as certain other returns of town taxation had been furnished before the accounts of those towns were audited, it has been found necessary to revise the town taxation for that year in so far as relates to the cases referred to.

The Grand Jury taxation for 1892 has also been revised to the extent of including in the total taxation of the year only the amount of Grand Jury Cess which had been collected instead of the amount authorized to be levied, as had formerly been the practice. This revision was rendered necessary in order to obtain a correct comparison with the year 1893, inasmuch as the total taxation for that year given on the preceding page, viz.: £3,697,949, includes the amount of cess collected and applied towards the year's expenditure, as shown in a new table on pages 16 and 17, which has been prepared from the abstracts of County accounts furnished after audit by the Auditors of the Local Government Board.

Total increase,	137,194	—
Deduct decrease,	—	29,484
Net increase, as shown on preceding page,	107,710	—

It will be seen from the foregoing analysis that compared with the previous year there was in 1893 a decrease of £8,850 in Grand Jury cess, and of £20,405 in Harbour taxation, while there was an increase of £57,933 in the taxation by town authorities, and of £74,796 in that by Boards of Guardians. In reference to the increase in the amount of the taxation by Boards of Guardians in 1893 as compared with 1892, it may be noted that the amount in the latter year, viz., £997,327, was lower than in any of the preceding years since 1878, and that the amount in 1893, viz., £1,072,123, was less than the average of the years from 1878 to 1892, inclusive.

The Grant in aid of local taxation provided by the Probate Duties (Scotland and Ireland) Act, 1888, amounted to £210,062 for the year ended the 31st of March, 1893, of which one-half was received by Boards of Guardians (as shown in Appendix XVII., page 44), and the other half by Road Authorities, viz., £85,526 by Grand Juries, and £19,505 by certain Town Authorities. The towns which participate in the Grant, and the sum received by each of them in respect of the year in question are given in Table XXI. of the Appendix, page 48.

2. Grand Jury Cess.

One of the oldest and the largest of the local taxes in Ireland is the rate on real property called Grand Jury cess. It derives this name from the Authority chiefly engaged in authorizing its application. The origin of this tax, and the constitution of the bodies that administer it, are fully explained in former Reports.

The following is a classification of the gross amount of Grand Jury cess under the principal heads of the expenditure proposed :—

		£	Per centage of total.
Roads and bridges,		751,858	51·26
Maintenance of lunatic asylums,		157,164	10·71
Miscellaneous,		225,040	15·34
Salaries of County officers,		102,575	6·99
Prison expenses,		19,117	1·3
In discharge of debt :—			
To Government,	£75,356		
To others than Government,	6,409		
		81,765	5·57
Infirmaries, hospitals, &c.,		80,326	5·48
Extra police,		27,248	1·86
Valuation,		8,000	·55
Erection and repairs of Court and Sessions' houses,		7,864	·54
Police for weights and measures,		5,853	·4
Total,		£1,466,810	100

The re-presentments and other credits included in this total amounted to £212,524, and the deduction of this sum left a net amount of £1,254,286 to be levied in the year 1893.

The receipts of County Authorities in the year 1893, excluding the counties of the cities of Cork, Dublin, and Limerick which are not under Grand Jury management for fiscal purposes,* amounted to £1,403,721, and this is summarized as follows :—

	£	Per centage of total.
Amount of Grand Jury cess collected,	1,211,701	86·32
From Imperial taxes,	129,106	9·2
From local rates or taxes,	26,288	1·88

Total,	£81,956

4. The Dogs Licence Duty.

The collection of the dogs licence duty is entrusted to the Petty Sessions clerks, and a return of it is made to Parliament by the Registrar of Petty Sessions clerks, so that an abstract only is included in Appendix V. to this Report. A considerable part of the remuneration of Petty Sessions clerks is derived from the dogs licence duty. The surplus of the duty, after providing for the cost of collection, is paid over in aid of Grand Jury cess and Town rates.

		5,415
Taxes connected with police courts rather than with police :—		
Fines and penalties from police courts,	3,836	
Fees from police courts,	1,590	
		5,426
Total,		£49,671

6. Court Leet Presentments.

It has been ascertained that the only Court Leet in Ireland which has not actually ceased to exist is that in the Manor of Killultagh, including the town of Lisbur , in the county of Antrim, of which an account is given in Appendix XXVI. to the R ort for 1869. The Court Leet presentments bore some resemblance to Grand Jury ess in having been levied off land and partly applied towards manor roads; they rese ed town taxation in having been applied to town fountains, fire-engines, and fair nd markets. There has been no presentment made for many years, and th Court et referred to may be regarded as practically obsolete.

7. Taxation under Harbour Authorities.

The receipts and expenditure of the Harbour Authorities are shown in the following summary :—

Receipts.	£	*Expenditure.*	£
Import and export tonnage and ballast dues,	148,163	New works and improvements,	66,559

9. Arterial Drainage.

Repayments for Expenditure on Drainage Works executed by Commissioners of Public Works.

The particulars of these repayments have been supplied by the Commissioners of Public Works. The repayments made by proprietors of lands amounted to £35,710, and the sum repaid out of county cess was £1,944.

10. Receipts and Expenditure of Town Authorities.

The receipts of the various town authorities are grouped together in the following table to facilitate comparison of the amounts collected by the different classes of town authorities. The taxation levied by the Commissioner of the Dublin Metropolitan Police is not included therein, as the expenditure on police is not under the control of local authorities, but it is shown separately in the summary table on page 11.

The receipts are divided into—(1) rates on real property; (2) tolls, dues, and fees; (3) from rents and other sources; (4) from borrowed money and the issue of stock; (5) from Imperial taxes; and (6) from Grand Jury cess, or other local tax.

11.—Burial Boards.

The receipts and expenditure of Town Authorities for burial ground purposes are included in the town returns; and the details of the receipts and expenditure of rural burial boards, and of the urban burial boards from which returns have been received, and of joint urban and rural burial boards are shown in Table XVI., in the Appendix.

12.—Poor Rates.

The particulars of collection and expenditure of poor rates are fully set forth in the annual Reports of the Local Government Board, and it is only necessary here to refer to abstract XVII. in the Appendix, page 44, in order to ascertain the amount of these rates which is included in the classified summary of local taxation given in the following table.

13. Classification of Local Taxation, and amount received from (1) Rates on Real Property; (2) Tolls, Fees, Stamps, and Dues; and (3) Other Sources.

Excluding borrowed money and grants from Imperial taxes, the local taxation of Ireland in 1893 is classified in the following table to show how much was obtained, respectively, from rates on real property, from tolls fees stamps and dues, and from other sources of receipt.

In the case of Grand Jury taxation it is necessary to deduct from the other receipts given on page 16, £13,907, received from the Dogs licence duty, and £2,518 produced by the sale of investments, while as regards town taxation the following deductions must be made from the receipts from other sources of £172,805, included in the table on the opposite page:—£6,026 received from Petty Sessions Stamps and Crown fines, £1,179 from the Dogs licence duty, £4,102 from grants or contributions made for specific purposes, and sums amounting to £18,207 which either appear twice in the accounts of the same authority, or are accumulations of sinking funds applied in discharge of debt, thereby reducing the amount of such receipts to £143,291.

Increase,	119,112	2,167	—	107,710
Decrease,	—	—	13,569	—

* A sum of £2,029 has been deducted from other receipts in the case of Harbour taxation, it having been ascertained that "value of stores on hand," and "sale of investments" to this amount had been included in the receipts of the year.

It appears from the foregoing table that the amount of the local taxation of Ireland in the year 1893 was produced as follows :—

	£		Per cent.	
Rates on real property produced, . .	2,952,104	or	79·83	of the total amount.
Tolls, Fees, Stamps, and Dues, „ . .	474,035	„	12·82	„ „
Other receipts, ...	271,810	„	7·35	„ „
Total, . . .	£3,697,949		100	

As compared with the revised taxation of the previous year which is given at foot of the table on the preceding page, there was, therefore, an increase of £119,112 in the amount produced by "Rates on real property;" and of £2,167 in that produced by "Tolls, Fees, Stamps, and Dues," while there was a decrease of £13,569 in that by "Other receipts," making a net increase of £107,710, as already shown on pages 5 and 6 of this Report.

RETURN showing by Unions and Electoral Divisions, in *Ireland*, the Poor Rate for each of the Five Years ended in 1893, with the Averages throughout those Years.

EXPLANATORY OBSERVATIONS.

I. For a reason similar to that given in the Explanatory Observation prefixed tothe County Cess portion of this Return the Special Rates under the Public Health Act assessed on areas other than Electoral Divisions are not included in the Poor Rate given in this Return.

II. In 133 Unions the years ended on the 29th of September, and in each of the remaining 26 cases the date on which the years ended is given in a note at foot of the Union.
